# Secured Investmen

# Prospectus No.13 For the Issue of Secured Notes

NBFI Secured Investments Limited ACN 111 607 606

# **Important Notice**

This Prospectus is dated 15<sup>th</sup> November 2022. A copy of this Prospectus has been lodged with the Australian Securities and Investments Commission (**ASIC**).

ASIC takes no responsibility for the contents of this document, or the merits of the investments offered by this Prospectus.

No securities will be allotted or issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

The Company reserves the right to close the Prospectus at an earlier date.

The invitation to invest is available to persons who receive this Prospectus and Application Form within Australia. If you have received an electronic copy of the Prospectus, you may obtain a paper copy free of charge from our offices at Suite 103, Level 1 274-290 Victoria Street DARLINGHURST NSW 2010 or call 02 9167 0909. The electronic form can be found on the Company's website www.nbfisecuredinvestments.com.

The Company refers to and adopts ASIC Corporations (Debenture Prospectus) Instrument 2016/75, where the Company issues a separate interest rate card containing investment rates and terms from time to time. All investors should confirm the currency of any interest rate prior to completing an application.

This Prospectus is an important document and should be read in its entirety. Before deciding to invest, you should consider whether NBFISI Notes are a suitable investment for you. The information in this Prospectus is of a general nature and has been prepared without taking account of your personal objectives, financial situation or needs. This Prospectus is not a statement of advice. You should carefully consider these factors in light of your personal circumstances (including financial and taxation issues) and seek professional advice if necessary, before investing. Any material changes to information contained within this Prospectus will be the subject of continuous disclosure via the Company's website www.nbfisecuredinvestments.com

Melbourne Securities Corporation Limited is the trustee for the holders of NBFISI Notes (**Trustee**) and holds a General Security Agreement over all of the assets of the Company. This security interest is registered on the Personal Property Security Register. Neither the Company Directors, or the Trustee, or any of their related parties guarantee the obligations of the Company for the repayment of capital or payment of interest on NBFISI Notes.

ASIC Corporations (Describing Debentures – Secured Notes) Instrument 2022/61 provides that debenture issuers can only describe the debentures it issues as "Secured Notes" if:

(a) the repayment of all money that has been, or may be, deposited or lent under the debentures has been secured by a first ranking security interest in favour of the trustee over the whole or any part of the property of the borrower or of any of the guarantors; and

(b) the property that constitutes the security for the security interest is sufficient and is reasonably likely to be sufficient to meet the liability for the repayment of all such money and all other liabilities that:

- (i) have been or may be incurred; and
- (ii) rank in priority to, or equally with, that liability.

The Company does and will comply with those requirements.

The Company is <u>not</u> authorised under the Banking Act 1959 and is not supervised by the Australian Prudential Regulation Authority (APRA). The depositor protection provisions in Section 13A of the Banking Act 1959, will not cover NBFISI Notes. Investments with the Company are not covered by the Financial Claims Scheme established under Division 2AA of the Banking Act 1959. Investors in NBFISI Notes may lose some or all of their investment.

# 1. Company Profile

NBFI Secured Investments Limited ACN 111 607 606 (**Company**), is an Australian owned and operated unlisted Public Company with offices in Sydney NSW and holds Australian Financial Services License Number 292528, which authorises it to issue Secured Notes of the Company.

The predominant activity of the Company is to accept moneys from investors and to lend those funds to approved borrowers on security of registered mortgages over real property in Australia. However, the trust deed permits funds raised to be used for other purposes as outlined in Section 7.8"Permitted Investments" of this Prospectus.

While the mortgage lending business has not in the past reached the critical mass necessary to provide continued profit, other permitted investments being real property investment have been undertaken. The investment property owned is under contract and this form of investment will not be repeated.

In addition, whilst the Company continues to develop strategies to expand its debenture and lending business, the Company has been engaged by CEP Energy Pty Ltd (CEP) a related party of the Company, two of its Directors and the Company's sole shareholder, to manage loans applied for by, and granted to CEP to deliver environmental upgrades to a large portfolio of industrial and commercial properties. NBFISI's role under the engagement by CEP is limited to compiling the credit submissions, ongoing loan management and coordinating the collection of returns generated (if any) of the relevant energy projects funded by such loans. NBFISI is not giving advice or taking any credit exposure on the underlying loans. The Directors consider that the services to be provided to CEP will not hinder the management or operation of the Company's existing business. The Directors consider that this is an excellent opportunity to add incremental long-term income to the Company via utilising the skills of the Company's existing management team, to supplement the organic growth of the Company's lending business. The Directors anticipate that the provision of such services to CEP has the potential to contribute to increased retained earnings.

The Directors of the Company are committed to management and business practices designed to ensure the due performance of the Company's Secured Notes together with sustainable profitability and growth. Since commencing business no investor in NBFISI Notes has lost any capital or not been paid any interest when falling due.

For information on the Directors' interests in the Company we refer you to Section 10.2of this Prospectus.

The Company has prepared a Target Market Determination, in relation to the products disclosed in this Prospectus, in accordance with ASIC Regulatory Guide 274 "Product design and distribution obligations". The Target Market Determination may be found on the Company's website at <u>www.nbfisecuredinvestments.com</u>.

# 3. Chairman's Letter

### Dear Investor

The Directors and I invite you as a potential investor to read our Prospectus.

On behalf of the Board, I present this Prospectus for your consideration and invite you to subscribe for Secured Notes issued by our Company. This is an opportunity to invest in a fixed term investment that provides a regular income and fixed rates of return. This Prospectus is designed to help you make an informed decision about whether you should invest in NBFISI Notes. By investing in Secured Notes your investment in the Company is secured by a charge over the assets of the Company in favour of Melbourne Securities Corporation Ltd as trustee for the holders of NBFISI Notes, to protect your interests for timely payments of interest earned and redemption of your investment principal. Please refer to the Directors' statements at Section 15 of this Prospectus.

NBFI Secured Investments Limited offers investors a fixed interest investment from a local owned Australian Company supporting local enterprises and communities.

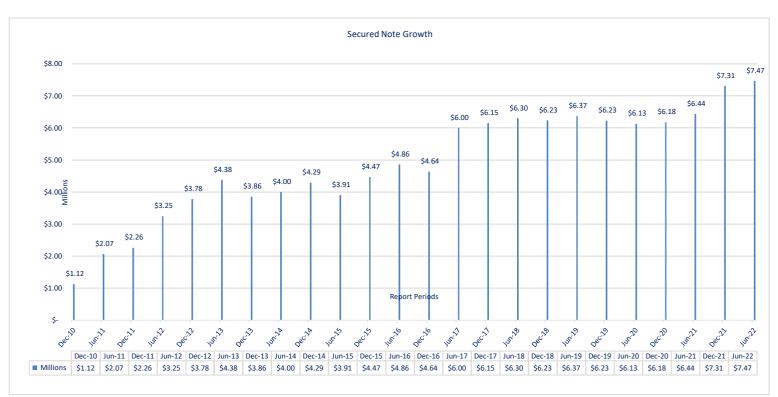

Whilst the Company continues to develop strategies to expand its debenture and lending business, the Company has been engaged by CEP Energy Pty Ltd (**CEP**) a related party of the Company, two of its Directors and the Company's sole shareholder, to manage loans applied for by, and granted to CEP to deliver environmental upgrades to a large portfolio of industrial and commercial properties. CEP is proposed to be the operating company of the CEP Fund, a fund that is planned to be launched in the near future which will develop, fund, own and operate cost-efficient energy solutions including embedded networks and behind the meter generation.

NBFISI's role under the engagement by CEP is limited to compiling the credit submissions, ongoing loan management and coordinating the collection of returns generated (if any) of the relevant energy projects funded by such loans. NBFISI is not giving advice or taking any credit exposure on the underlying loans. The Directors consider that the services to be provided to CEP will not hinder the management or operation of the Company's existing business.

The Directors consider that this is an excellent opportunity to add incremental long-term income to the Company via utilising the skills of the Company's existing management team, to supplement the organic growth of the Company's lending business. The Directors anticipate that the provision of such services to CEP has the potential to contribute to increased retained earnings.

Yours faithfully,

Peter David Wright (Chairman)

The Company has shown steady growth in Secured Notes issued, increasing to \$7.473 million as at the 30 June 2022.

# 4. Board of Directors

		Determined by the second
Peter David Wright Appointed 01 April 2019	Executive Director & Chairman	Peter has held many senior positions in multi-national corporations as well as start-ups as a founder over a 38-year period. He was an Executive Director of Macquarie Bank as well as a licenced fund manager. Within Macquarie he was involved in the formation of several significant real estate funds and securitized real estate lending businesses in which Macquarie was an early mover and the largest player in the Australian market. Peter received the first foreign private equity funds management license issued in Tianjin, China as well as a Capital Markets Services License in Singapore. Peter has extensive experience as a principal investor, senior lender and mezzanine lender and has established networks of wholesale investors globally to provide the necessary credit lines to build funds under management. Peter has chaired both credit and investment committees in Australia and Singapore and is an established investor in real estate, infrastructure and energy. Peter is a director of CEP Energy Pty Ltd, a renewable energy company.
Geoffrey John Wensley Appointed 01 April 2019	Executive Director & Head of Operations	Geoff brings over 34 years of experience in the finance industry which includes some 15 years within the mortgage/funds management field performing various roles within both bank and nonbank environments. Geoff's previous positions include Operation Manager with Global Capital Corporation actioning multiple project functions, Operations Manager at MCCA Limited responsible for two interstate offices, and Team Leader (Manager) of commercial lending operations for Challenger Commercial Lending and the Challenger Howard Mortgage Fund. Challenger Commercial Lending won Money Magazine's fund manager of the year for Mortgage Trusts seven times. Geoff brings a vast knowledge of the commercial lending, mortgage trust and fund management fields. Geoff's focus is to ensure each client that engages with the Company, gains the ultimate borrowing or investment experience through the implementation of quality processes and procedures throughout the various segments of the business.
Dr Henry Pinskier Appointed 10 May 2019	Non-Executive Director	Henry is a Williamson Fellow and is a trained medical practitioner. Henry is the controlling shareholder of Medi7 Pty Ltd and Health & Allied which is a general practice and allied health services company with 100 doctors and allied health professionals across 10 sites. He is a current director of Curae Health, a vertically integrated dental services business that owns dental practices, dental laboratories and dental radiology centres. Henry is the current Chair of the John Curtin Research Centre which is a progressive research centre undertaking public policy work. Henry is also a director of PhytoGro Pty Ltd, a medicinal cannabis and CEP Energy Pty Ltd, a renewable energy company. In the past Henry chaired the Optometry Research Ethics Committee, a director of VMIA (Victorian Government insurance entity), a director of Disability Housing Trust and director of Alfred Hospital Health Service.
Craig Stephen Hitchings Appointed 25 September 2020	Executive Director & Head of Lending	Craig has substantial knowledge of a wide range of aspects of the banking and finance industry having held senior management roles for over 32 years. Craig was previously employed by Australia's largest commercial mortgage fund, Challenger Commercial Lending Limited for 20 years where he held the position of Head of Commercial Lending with funds under management of \$4 billion. His previous employment included senior management roles with major banks. Craig's responsibilities included managing the lending activities of the fund including new business, arrears management, maturity profiling, broker and risk management as well as budget determination and pricing. As Head of Commercial Lending his role also encompassed liaising with Internal Asset and Funds Management staff, researches, industry bodies, brokers and borrowers. Craig was a member of the Mortgage Management Credit Risk Committee, Compliance Committee, Operational Risk Committee and Credit Committee, and won Money Magazine's Fund Manager of the Year for Mortgage Trusts seven times.

# 5. Investment Overview

This Section of the Prospectus highlights key information to help investors assess the risks and returns associated with this offer in order to make informed investment decisions. All investments involve risk and there is a risk to investors of a loss of either principal or interest. You should consider these risks, as detailed in the "Risks" in Section 5.4.

### 5.1 Glossary

This Glossary highlights key terms and their meaning in this document.

ACL	Australian Credit License issued by ASIC pursuant to the National Credit Protection Act2009.

Trust Deed	The Trust Deed (as amended) between NBFI Secured Investments Limited and the Trustee dated 12 <sup>th</sup> December 2006 as amended.
Trustee	Melbourne Securities Corporation Limited ACN 160 326 545.

### 5.2 Business Model

This section explains what the Company does and how the Company expects to generate income and provide a return to NBFISI Note holders.

The Company's business model is to raise funds from investors through the issue of Secured Notes under this Prospectus to provide for the Company's predominant activity which is to lend those funds on the security of registered mortgages over titles to real properties (i.e., real estate) in Australia and to invest in other investments as permitted by the Trust Deed. The Company's income is derived primarily from the difference between its average interest rate on mortgage loans and investment of liquid funds and the average rate of interest paid to NBFISI Note holders. NBFISI Note holders do not participate in the profits of the Company but receive a rate of return (interest) on their investments.

NBFISI's role under the engagement by CEP is to provide credit assessment, loan management services and coordinating the collection of returns generated of the relevant energy projects funded by such loans. NBFISI is not giving advice or taking any credit exposure on the underlying loans. The Directors consider that the services to be provided to CEP will contribute significantly to earnings.

The key risks associated with the Company's business model are addressed in Subsection 5.4 of this Prospectus.

Details of the composition of the Company's mortgage portfolio are contained in Section 6 "ASIC Benchmarks".

### 5.3 The Offer and Key Features of the Product

This Subsection highlights details of the offer and key features of the product.

### **NBFI Secured Investments Ltd**

NBFI Secured Investments Ltd has been in operation since 2007 (under the previous name of Anglesey Secured Investments Limited). During this time, it has never defaulted on a payment of principal or interest to an investor.

#### Amount to be raised by the offer

There are no minimum or maximum amounts to be raised under this Prospectus.

### Term of the offer

This Prospectus is dated 15 November 2022. NBFISI Notes will not be allotted or issued after the expiry date, which is 15 December 2023.

#### Purpose of the offer

The funds raised under this Prospectus will be used to fund the expansion of the Company's predominant activity of lending funds to borrowers on a "secured basis" by registered mortgages over real property not exceeding 80% of valuation, and also making other investments as permitted by the Trust Deed.

#### Types of investments available

Fixed Term investments ranging from 12 months to 36 months.

#### Is repayment of my investment secured?

Repayment of all monies that have been or may be invested with the Company is secured by a security interest over the assets of the Company in favour of Melbourne Securities Corporation Limited as trustee for the holders of NBFISI Notes.

### How to invest

Simply complete the Investment Application Form accompanying this Prospectus and, together with your cheque, either mail it to us or lodge it at one of the Company's offices. New investors will also need to provide sufficient identification. Please contact the Company to enquire about our current identification requirements.

### Who can invest?

Investments can be opened in single or joint names, or in the names of partnerships, superannuation funds, trusts, deceased estates, businesses, companies and other incorporated/unincorporated bodies. Investments for trusts and superannuation funds should be opened in the name (s) of the trustee(s).

#### Minimum investment amount

\$5,000.

#### **Investment Terms**

An Interest Rate Card accompanies this Prospectus. Applicants should confirm that the interest rates and terms are current prior to completing an Investment Application Form, either by contacting one of the Company's offices or visiting the Company's website www.nbfisecuredinvestments.com "Fixed Term" investments attract the interest rate fixed for the term chosen by you. Investment terms range from fixed terms of 12 months to 36 months.

### When is interest paid?

Interest is paid on all investments in arrears at regular intervals based on client instructions, which can be at maturity, monthly, 3 monthly or 6 monthly as displayed on the "Interest Rate Card" accompanying this Prospectus.

### How is interest paid?

Interest on "Fixed Term" investments may be added to your "Fixed Term" investment or transferred directly to another Financial Institution.

### How is interest calculated?

Interest is calculated and accrues on the investment daily from the date of receipt of your application monies.

### What happens when my "Fixed Term" Investment reaches its maturity date?

The Company's policy is that approximately 30 days prior to the maturity date of a "Fixed Term" investment the Company will write to the Secured Note holder advising of the rates and terms available upon which funds may be reinvested for a further period. This pre-maturity letter will also state that the Company's current Prospectus, together with any relevant ongoing disclosure documents, will be available from the Company's website www.nbfisecuredinvestments.com and that investors who do not have access to the website may request a hard copy of these documents, free of charge, by directly contacting the Company's offices.

If written instructions are not received by the Company 10 business days before its maturity, the "Fixed Term" investment shall,

upon maturity, be reinvested for a similar term at the rate as at the date of maturity. A 'Certificate of Investment' will be forwarded to the client confirming the reinvestment.

### How will I know if you have accepted my investment?

As soon as reasonably practicable and no later than 21 days from the receipt of application monies we will forward to you a 'Secured Note Certificate' for the fixed term Investments. If accepted by the Company, investors adding to an existing 'Fixed Term 'Investment will be issued with an investment receipt as confirmation.

### Early withdrawal

The Company will consider early withdrawals from a "Fixed Term" investment in exceptional circumstances. Withdrawal requests to 31 days' notice accounts will require at least 31 days' notice to be given to the Company.

In line with the Banking Exemption No. 2 of 2018, the Company may, upon written request from a retail investor at any time, pay to the investor some or all of the funds invested in Secured Notes, provided that the Company is satisfied that the investor has demonstrated that he or she is subject to exceptional circumstances that may lead to hardship and that it is appropriate to release the funds.

The Company will consider early withdrawals from a "Fixed Term" investment or exemptions to the 31 days' notice only in cases of hardship and compassionate grounds as per the Company's Hardship Policy. This will be at the sole discretion of the Company and will be subject to an adjustment of the interest rate.

### Fees

No establishment charges, no ongoing fees and no exit fees apply to any investment/s made pursuant to this Prospectus. Government taxes are passed on to investors.

## Other

The Company reserves the right to accept or reject applications and also the right to redeem early any NBFISI Note by giving 30 days written notice to the holder and redemption may be with or without a premium over and above interest earned up to and including the date of redemption.

More detailed disclosure is contained in Section 7 "Details of the Issue", Section 6 "ASIC Benchmarks" and the "Important Notice" located at the front of this Prospectus.

### 5.4 Risks

This Subsection highlights details of the key risks associated with an investment in NBFISI Notes.

The Company believes it has appropriate policies in place to manage and control the level of risk as detailed in Section 7.7 "Security and Risk Assessment", on page 20. This process provides a structured approach to ensure strategies are in place to meet the Company's obligations under the Corporations Act, its AFSL as well as other core risks, including human resources, financial, technology, internal and external business and economic risks which may impact on the Company's operation. All investments involve risk and there is a risk to Secured Note holders of a loss of either principal or interest.

### THE KEY RISKS MONITORED BY THE COMPANY ARE DETAILED IN THE FOLLOWING TABLE:

Risks	Details	Further information in this Prospectus	
Liquidity	Liquidity is a measure of the short-term financial health of the Company. Too little liquidity may mean that the Company has insufficient cash equivalents to meet its projected cash needs. That could result in the Company being unable to meet its obligations to pay interest on Notes when due or to repay principal on maturity. Too much liquidity may also be a factor that results in reduced profits.	Refer to <b>Benchmark 2: Liquidity</b> under Section 6 "ASIC Benchmarks" for details on how the Company manages this risk.	
Financial performance	The financial performance of the Company may be influenced by many factors, including the general economic conditions, Government policy, fluctuations in market interest rates and the composition of the Company's investment and mortgage portfolio. Too little or no profit margin will have an effect on the Company's ability to meet its financial commitments.	Refer to Subsection 7.7 "Security and Risk Assessment" together with <b>Benchmark 4: Debt maturity</b> and <b>Benchmark 5: Loan portfolio</b> under Section 6 "ASIC Benchmarks", for details on how the Company manages this risk.	
	Factors outside the influence of the Company, such as general economic conditions and Government policy may, amongst other factors cause market interest rates to fluctuate. This may increase the risk of default by		

	<ul> <li>borrowers on loans or reduce the margin between interest paid on NBFISI Notes and the interest received on the Company's loans. A reduction in margin may affect the profitability of the Company. Likewise, a reduction in value of real property may impact on the value of the Company's investment portfolio.</li> <li>These circumstances may impact on the Company's profit margin and the Company's ability to pay interest and repay principal amounts of NBFISI Notes when they fall due.</li> <li>Many of the investors in the Company are from the Central Western Region of New South Wales. Their ability and willingness to invest in NBFISI Notes will to some extent depend on the state of the regional economy. A local recession could result in a significant reduction in investments in NBFISI Notes and an increase in defaults and loans made in the region. The Company is actively looking to expand the geographic diversity of its investor base. To help reduce the risk, the Company monitors cash flows, margins, expenditure, loan arrears and all legislation requirements to ensure the Company meets all its financial obligations.</li> </ul>	
Loan portfolio	The financial circumstances of borrowers may change from time to time, as may the value of properties held as security for loans advanced and the diversification of the Company's loan portfolio. There is a risk of borrowers defaulting on loans which may result in a loss of principal and/or interest to the Company. The ability of the Company to meet its repayment obligations to NBFISI Note holders is dependent upon the performance of the Company's loan portfolio together with the performance of its investment portfolio and cash flows. Diversification of the Company's loan portfolio across a number of borrowers and variety of types of security property ranging from residential, commercial and rural helps to reduce risk. The Company believes it has appropriate policies to manage and control the level of risk as detailed in the Subsection 7.7.1 "Inherent Key Risks and Their Management", on pages 21 - 22.	Refer to <b>Benchmark 5: Loan Portfolio</b> together with Subsection 7.7 "Security and Risk Assessment" for details of the Company's loan portfolio which includes details of the Company's loans past due, the lending policies the Company has adopted to manage and control risk and its approach to taking security in relation to its lending.
CEP agreement	Whilst the Company continues to expand its debenture and lending business, the Company has been engaged by CEP Energy Pty Ltd ( <b>CEP</b> ) a related party of the Company, two of its Directors and the Company's sole shareholder, to manage loans applied for by, and granted to CEP to deliver environmental upgrades to a large portfolio of industrial and commercial properties. CEP is proposed to be the operating company of the CEP Fund, a fund that is planned to be launched in the near future which will develop, fund, own and operate cost-efficient energy solutions including embedded networks and behind the meter generation.	
	<ul> <li>NBFISI's role under the engagement by CEP is limited to compiling the credit submissions, ongoing loan management and coordinating the collection of returns generated (if any) of the relevant energy projects funded by such loans.</li> <li>NBFISI is not giving advice or taking any credit exposure on the underlying loans.</li> </ul>	
	Notwithstanding the inherent risk of conflicts of interests arising in connection with related party transactions, the Company believes that the common directors and shareholders between the Company and CEP, will serve	11

<b></b>		
	to better align the interests of both parties under this engagement.	
	The payment of fees by CEP is subject to the credit submissions converting into approved loans. Therefore the recoverability on the Company's efforts and monies expended on performing its services is dependent on a sufficient number of loans being approved (by volume and quantum).	
	Finally, the Company is required to hold any licences, permits and authorisations required to provide the services to CEP and therefore bears the regulatory and compliance burden of complying with such requirements.	
Equity	Equity is the money invested by the owners of the Company (plus any profits retained by the Company). If the Company had a higher level of equity it would be better able to withstand unforeseen losses on loans. If the Company did incur losses on loans which reduced its equity too far and the Company could not see an immediate turnaround, it may need to either raise more share capital or stop issuing Notes.	Refer to <b>Benchmark 1: Equity Capital</b> under Section 6 "ASIC Benchmarks" for details on how the Company manages this risk.

### 5.5 Financial Information

This subsection provides key financial information about the Company's financial position and performance. The Company's net profit (loss) after tax for each of the previous 3 financial years is as follows:

- 2022: \$351,047
- 2021: \$350,995
- 2020: \$(26,129).

The activities of the Company are determined by the Trust Deed as outlined in Section 10.1 of this Prospectus. The funds raised are predominantly utilized in mortgage lending activities. During the past 12 months, this activity did not reach the critical mass required to produce a profit. Increased lending is expected to turn this around during the 2021 financial year. The company intends to comply with Benchmark 1 and maintain an equity capital ratio of 8% or more. An increase in shareholder capital will facilitate the Company's ability to raise more funds from investors without jeopardising compliance with Benchmark 1. The Company's equity capital at 30 June 2021 was \$924,346 (audited figures) at 31 December 2021 \$1,109,529 (reviewed figures) and at 30 June 2022 \$1,275,393 (audited figures)

As at 30 June 2022 (reviewed figures) the Company's equity capital increased to \$1,275,393 due to income produced via CEP energy agreement in this period.

The Directors believe the Company's current equity level is adequate given the nature of its business. However, past performance is not a guarantee of future performance.

The Company's Independent Auditors Report is set out in Section 8 of this Prospectus and should be referred to for further detail. The 30 June 2021 financial figures quoted in reference to the Company's performance in this Prospectus are audit reviewed figures. Further figures (unaudited) may be obtained at the Company's website displaying June 2022 quarter performance.

NBFISI Note holders do not participate in the profits of the Company but receive a rate of return (interest) on their investments.

### 5.6 Directors and Managers, Interest and Benefits.

This subsection details the Directors and Key Managers of the Company, the interest and any related party transactions. Directors and key managers of the company are:

- Peter David Wright (Executive Chairman)
- Geoffrey John Wensley (Executive Director, Company Secretary & Head of Operations)
- Dr Henry Pinskier (Non-Executive Director)
- Craig Hitchings (Executive Director, Head of Lending)

Section 4 "Board of Directors" of this Prospectus details each Director's role and expertise.

Subsection 10.2 "Directors' Interests" details the interests each Director has in the Company.

Each Director is entitled to receive dividends on their shareholdings (if any), salaries and other entitlements as employees, and Director's fees.

This Prospectus is an important document and should be read in its entirety. Before deciding to invest, you should consider whether investments in NBFISI Notes are a suitable investment for you. Your financial adviser may help you determine whether investing in NBFISI Notes is appropriate for you taking account of your objectives, financial situation and needs.

# 6. ASIC Benchmarks

In its Regulatory Guide 69 entitled "Debentures and Unsecured Notes – improving disclosure for retail investors" ASIC sets out some guidelines for disclosure in the form of 8 benchmarks. ASIC considers that note issuers should disclose whether they comply with those benchmarks and if they do not, they should explain why that is. This Section of this Prospectus addresses those benchmarks.

ASIC has produced an investor guide "Investing in debentures?" to help investors understand and use the disclosure benchmarks and promote informed decision-making. The investor guide is available at www.moneysmart.gov.au

### **Benchmark 1: Equity Capital**

NBFISI does comply with ASIC's benchmark with regards to equity capital as at 30 June 2022.

ASIC's benchmark is that issuers should use the following equity ratio benchmarks:

- (a) where more than a minor part (e.g. 10%) of the issuer's activities is property development or lending funds directly or indirectly for property development the issuer should maintain a minimum equity ratio of 20%;
- (b) in all other cases the issuer should maintain a minimum equity ratio of 8%;
- (c) the issuer's equity ratio should be calculated as follows:

Total Equity / (Total Liabilities + Total Equity)

(d) the issuer should disclose its comparative equity ratio from the prior year.

Explanation - If the issuer has less equity capital invested in the business, there might be no safety margin to tide things over if the business runs into financial difficulties. It could also mean that the issuer has less incentive to operate the business prudently and responsibly because less of its own money is at risk.

As at 30 June 2022 the Company had no loans for property development. (refer to Section 6, Benchmark 5: Loan Portfolio). This may will change over time. However, historically property development has formed a minor part of the Company's activities.

NBFISI did not comply with ASIC's benchmark with regard to equity capital based on the unaudited ASIC 283 BF quarterly report for June 2021.

Paid up equity capital is the money invested by the owners of the issuer (plus any profits retained by the issuer). It provides a buffer in the event of financial difficulties, and it also provides the issuer's owners with an incentive to operate prudently and responsibly.

Equity capital is the real value of the Company at a point in time, or the owners' value in the Company. As at 30 June 2022, NBFISI had \$1,275,393 in equity capital, which was an increase on the \$924,346 in equity capital held at 30 June 2021.

Equity capital can be expressed as a financial ratio by dividing the equity capital of the Company by the total debt of the Company plus equity capital. As at June 2022 this ratio as a percentage was 15.86%. At 30 June 2021 the equity capital ratio was 12.51%. Given the low LVR of the lending portfolio this equity capital is considered to be at a satisfactory level to support the business and provide a buffer to investors.

### Benchmark 2: Liquidity

NBFISI does comply with ASIC's benchmark with regards to liquidity.

ASIC's benchmark is that all issuers should:

- (a) have cash flow estimates for the next three months; and
- (b) ensure that at all times they have cash or cash equivalents sufficient to meet their projected cash needs over the next three months.

All issuers should also disclose whether they would have cash on hand or cash equivalents sufficient to meet their projected cash needs if:

- (a) the percentage of note funds to be rolled over during the next three months were 20% less than the percentage that was rolled over in the past three months; or
- (b) for note funds that are held on an "at call" basis the amount of note funds retained during the next three months were 20% less than the amount that was retained during the past three months.

Explanation – Liquidity is an important measure of the short-term financial health of an issuer or business. If the issuer has insufficient cash or liquid assets, it might be unable to meet its short-term obligations (e.g.: to run the business properly, pay interest, or pay investors their money back at the end of the term).

The Company believes that its approach to liquidity and assumptions in calculating cash on hand or cash equivalents is sufficient to meet its projected cash needs if:

- (a) The percentage of NBFISI Note funds to be rolled over during the next three months were 20% less than the percentage rolled over in the past three months; or
- (b) For NBFISI Note funds that are held on an "at call" basis, the amount of NBFISI Note funds retained during the next three months were 20% less than the amount that was retained during the past three months.

When applying the above "liquidity stress test" based on the rollover rate, the Company would still have sufficient cash levels to meet its projected cash needs. In maintaining this liquidity level, the Company does not rely on any increase in the total level of NBFISI Notes on issue.

The calculation for the Company's projected cash needs is prepared on a quarterly basis and more often if required to assess the Company's financial resources.

Liquidity is the amount of cash or receivables that the Company possesses to ensure it can readily meet any withdrawal of Note funds or fund the mortgage operations of the Company. As at 30 June 2022 the Company held liquidity of \$6,803,073 which represented 84.14% of Notes issued. Liquid funds will vary over time. The Company targets a minimum of 12% liquidity and in the event that the Company's liquidity nears 12% the Company will stop lending in order to increase its liquidity level. The experience of the Company has been that 12% liquidity is sufficient to cover the ongoing cash needs of the Company without relying on any increase in the level of NBFISI Notes on issue.

At 30 June 2022, the Company was experiencing 100% rollover of maturing Notes for the preceding 3 months. The rollover of maturing Notes for the quarter ending 30 June 2021 was 94%, and for the quarter ending 31 December 2021 was 100%

The Company reviews cash flows on a 3-monthly basis and monitors its financial resources (new Note holders, loan repayments and loan advances) on a day-to-day basis to ensure compliance with its targeted liquidity policy of 12%.

If the Company experiences a 20% decrease in retaining maturing Notes being rolled over in the next 3 months, the Company would have sufficient cash levels to meet its projected cash needs.

### **Benchmark 3: Rollovers**

NBFISI does comply with ASIC's benchmark with regards to Rollovers.

ASIC's benchmark is that note issuers disclose their approach to rollovers, including whether the 'default' is that Secured Note investments with them are automatically rolled over upon maturity. The Company's policy is that approximately 30 days prior to the maturity date of a "Fixed Term" investment the Company will write to the Secured Note holder advising of the rates and terms available upon which funds may be reinvested for a further period. This pre- maturity letter will also state that the Company's current Prospectus, together with any relevant ongoing disclosure documents, will be available from the Company's website www.nbfisecuredinvestments.com and that investors who do not have access to the website may request a hard copy of these documents, free of charge, by directly contacting the Company's offices. If written instructions are not received by the Company 10 business days before its maturity, the "Fixed Term" investment shall, upon maturity, be reinvested for a similar term at the rate as at the date of maturity. A 'Certificate of Investment' will be forwarded to the client confirming the reinvestment.

### Benchmark 4: Debt Maturity

NBFISI does comply with ASIC's benchmark with regards to Debt Maturity.

ASIC states that all issuers should disclose:

- (a) an analysis of the maturity profile of interest-bearing liabilities (including notes on issue) by term and value; and
- (b) the interest rates or average interest rates applicable to their debts.

This benchmark assists investors to understand how the business is funded in terms of the nature, timing and costs of the issuer's debt obligations. As at 30 June 2022 the total value of notes on issue was \$7,473,354 with a maturity analysis of:

Term	Amount	Number	Percent
Due before 30/09/22	\$275,392	4	3.68%
Due between 01/10/22 and 31/12/22	\$735,891	6	9.85%
Due between 01/01/23 and 31/03/23	\$1,229,156	6	16.45%
Due between 01/04/23 and 30/06/23	\$1,868,454	16	25.00%
Due after 01/07/2023	\$3,364,461	19	45.02%
Total	\$7,473,354	51	100%

The Company reserves the right to redeem any NBFISI Notes early, by giving 30 days' notice to the holder and redemption may be with or without a premium.

The average interest rate applicable to the above funds as at 30 June 2022 was 6.276%.

### **Benchmark 5: Loan Portfolio**

NBFISI does comply with ASIC's benchmark with regards to Loan portfolio diversification and security.

ASIC's benchmark is that Secured Notes issuers who lend on funds should disclose the current nature of their loan portfolio and their policies in relation to these matters.

ASI's loan portfolio at 30 June 2022 was as follows:

- (a) The Company had 8 loans totalling \$1,043,463
- (b) The Company's mortgage documents provide for its loans to be called up on at 30 days' notice. With the exception of one loan with a remaining term of four years, all loans have been written with renewable maturity dates of between one to three years.
- (c) The weighted average interest rate charged on loans at 30 June 2022 was 8.651% and ranged from 7% to 12.25%.

### Mortgage loans by purpose and location as at 30 June 2022:

Loan Purpose	Loan Amounts	No. of Loans	Percent
Rural	\$554,633	2	58.80%
Commercial	\$485,830	6	41.20%
Development	\$0	0	0%
Total	\$1,043,463	8	100%
Security Location	Loan Amounts	No. of Loans	Percent
NSW	\$916,202	7	88.05%
QLD	\$0.00	0	0%
VIC	\$124,261	1	11.95%
Total	\$1,043,463	8	100%

(d) As at 30 June 2022 there were Nil loans in arrears for greater than 30 days.

- (e) All loans are secured by a registered mortgage over real property and water licenses; where appropriate. When considered necessary by the Company, additional security in the form of personal property security and 2<sup>nd</sup> mortgages over real property may also be taken to ensure that the risk of recovering funds is minimised.
- (f) The 10 largest loans totalled \$1,043,463 equal to 100% of total loans by dollar value and 100% of loans bynumber. The largest individual loan is \$430,372 and accounts for 41.36% of the loan book.
- (g) No loans are subject of legal proceedings for cost recovery.

Generally speaking, a large number of loans in a diverse or less concentrated portfolio will reduce the risk exposure to any single adverse event. For further information with regards to the above, together with details relating to the intended nature of the Company's loan portfolio and the lending policies the Company has adopted to manage and control risk are contained in Section 7.7 Security and Risk Assessment" and Section 7.8 "Permitted Investments" of this Prospectus.

### **Benchmark 6: Related Party Transactions**

NBFISI does comply with ASICs benchmark with regards to related party transactions.

ASIC's benchmark is that Secured Note issuers who on-lend funds should disclose their approach to related party transactions, including how many loans they have made to related parties and the value of those loans, and what assessment and approval process they follow with related party loans.

The Company does not lend funds to related parties and has not made any loans to related parties of the Company as of the date of this Prospectus.

On occasion, the Company and entities related to the company may choose to invest surplus funds with entities for which the Trustee may also provide trustee services.

### **Benchmark 7: Valuations**

NBFISI does comply with ASIC's benchmark with regards to valuations.

ASIC's benchmark is that Secured Note issuers who lend monies for property related transactions, should take the following approach to valuations:

(a) properties (i.e. real estate) should be valued on an 'as is' and (for development property) 'as if complete' basis;

- (b) development properties should be revalued at least every 12 months unless the funds are retained by the issuer and only released in stages to cover project completion costs;
- (c) issuers should have a clear policy on how often they obtain valuations including how a recent valuation has to be when they make a new loan;
- (d) issuers should establish a panel of valuers and ensure that no one valuer conducts more than one third of the issuers valuation work; and
- (e) appointment of valuers should be with the Trustee's approval.

Issuers should also include information about the valuation of a particular property in the issuer's prospectus where:

- (a) the property accounts for 5% or more of the total value of property assets of the issuer; or
- (b) a loan secured against the property accounts for 5% or more of the total value of the issuers' loan book.

Information about valuations assists investors to assess risks associated with lending policy. Details of the nature of the Company's loan portfolio, together with the lending policies the Company has adopted to manage, and control risk are contained in Section 7.7 "Security and Risk Assessment" and Section 7.8 "Permitted Investments" of this Prospectus.

The Trust Deed allows the Company to rely on a valuation from an 'approved valuer' which may include an independent and duly qualified valuer approved by the Trustee or a Valuer General or corresponding official (a municipal valuer) when approving mortgage finance. The Company may lend up to 70% of a municipal valuation where the property is known to a Director, or where it is supported by an arm's length purchase. In these circumstances the Company may lend up to 70% of the municipal valuation or purchase price, whichever is the lesser. The Company acknowledges that every loan approval is different, so a decision should be made in relation to each loan on its merits, and its valuation requirements at the approval stage based on the Directors' experience, with input from consultants if considered necessary.

When approving a mortgage loan, the Company reserves the right to obtain on any future dates an up to date valuation of the property or properties offered as security at the borrower's expense. The Company may exercise this option at its discretion during the term of a loan.

In relation to the benchmark set out in paragraph (d), the Company has established a panel of valuers, however, the Company will generally instruct a valuer local to the area in which the secured property is located, thus utilising the valuer's local knowledge expertise. Accordingly, as the Company has historically lent predominantly in regional areas and with limited local valuers available, it is possible that in the future more than one third of the property valuations may be conducted by the one valuer, but at this stage the Company meets the requirements of no one valuer conducting more than one third of valuations.

At 30 June 2022, the Company had 6 loans that accounted for 5% or more of the total value of its loan book and these loans collectively total \$1,039,694. The Company has sworn valuations for a total of \$6,835,000 for security for these 6 loans, as valued by 6 different valuers, (refer to table below "valuations for loans greater than 5% of the loan book"). These valuations were by summation and direct comparison. The appointment of independent and qualified valuers to the NBFISI panel of valuers has been approved by the Trustee.

VALUAT	VALUATIONS FOR LOANS GREATER THAN 5 % OF LOAN BOOK					
Loan Amount	Loan Amount % of Loan Book Property Value \$ Date of Valuation					
\$150,735 14.48 220.000 O						
\$82,983	7.97	5,000,000	November 2017			
\$124,260	11.94	500,000	December 2017			
\$155,518	14.94	320,000	November 2017			
\$430,372	41.36	620,000	January 2016			
\$95,826	9.20	175,000	July 2016			

The Company also owns one real property at 52-70 Church Street, Forbes. This has been valued at \$660,000 in September 2016.

### Benchmark 8: Lending principles - loan to valuation ratios

NBFISI does comply with ASIC's benchmark with regards to lending principles - loan to valuation ratios.

The loan-to-valuation ratio (**LVR**) is the value of the loan expressed as a percentage of the property value, for example if the loan is for \$80,000 and the value of the property is \$100,000 then the LVR is 80%.

ASIC's benchmark is that Note issuers who on-lend funds in relation to property related activities, should maintain the following loanto-valuation ratios:

- (a) where the loan relates to property development 70% on the basis of the latest 'as if complete' valuation; and (as previously disclosed, NBFISI does not make loans related to property development)
- (b) in all other cases 80% on the basis of the latest market valuation.

Where the loan relates to property development by a second person (even if related to the issuer), issuers should ensure that funds raised by the issue of Secured Notes are only provided to the developer in stages, based on external evidence of the progress of the development.

A higher loan-to-valuation ratio indicates a potentially higher level of risk of a loss in the event of default by a borrower which could result from a downturn in property markets. It is a measure of how aggressive a company's lending policies are. The Company's LVR's are limited to a maximum of 80% for all loans and 70% for the "on completion" value of development loans, (unless lenders mortgage insurance is obtained); which it considers to be a prudent level. The current loan-to-value ratio of the loan book at 30 June 2022 was 57.05% for all loans. Notwithstanding the Company's policy as to development loans, as at 30 June 2022, the company did not have any development loans.

Details of the nature of the Company's loan portfolio, and also the lending policies the Company adopts to manage and control risk, are contained in the discussion on Benchmark 5: Loan Portfolio and Section 7.8 "Permitted Investments" of this Prospectus.

# 7. Details of the Issue

Secured Notes are documents issued by the Company to acknowledge its indebtedness to investors in respect of money deposited with or lent to the Company.

This Prospectus offers to the public for subscription Secured Notes of \$1.00 each. Investment terms may be made for "Fixed Terms" that vary from 12 months to 36 months at the rates of interest detailed in the current Interest Rate Card accompanying this Prospectus. Applicants are advised to confirm the interest rate and investment term with the Company prior to completing the Investment Application Form to ensure that the Interest Rate Card and Investment Application Form are current. There is no minimum amount or maximum amount to be raised by this Prospectus. Subscriptions for Secured Notes may only proceed on the Investment Application Form accompanying this Prospectus. **No Notes will be issued on the basis of this Prospectus after the expiry date specified on page 9.** 

### 7.1 Purpose of this Prospectus

The Company seeks to raise additional funds from investors through the issue of Secured Notes. This will provide for the expansion of the Company's principal activities of lending money on the security of registered mortgages over titles to real properties and investment in other investments permitted by the Trust Deed dated 12 December 2006, as amended from time to time. The parties to that Trust Deed from 14 February 2017 are the Company and Melbourne Securities Corporations Limited (**Trustee**) as trustee for the Note holders (**Trust Deed**). The permitted investments of the Company are set out below and in Section 7.8.

The Trust Deed provides that the permitted investments for funds deposited with the Company depend upon the level of the Company's assets and liabilities.

Investments under the Trust Deed are not restricted if at the time an investment of money deposited with the Company in respect of Notes is proposed to be made, the level of the Company's secured and unsecured liabilities does not exceed 93% of its total tangible assets calculated in accordance with generally accepted accounting principles. The Company's <u>liabilities</u> as at 30 June 2022 (based on audited figures) <u>did not exceed 93% of total tangible assets</u>.

At any time when the Company's secured and unsecured liabilities exceed 93%, the Company may invest money deposited with the Company in respect of issued Notes in a limited range of authorised investments (these are described in Section 7.8). The Company can retain any investment it has made or renewed at a time when it satisfies the capital adequacy ratio even though the capital adequacy ratio may subsequently be exceeded, and the investment is not an authorised investment as described in Section 7.8. However, given the nature of the Company's business model of investing in first ranking mortgaged loans the Company does not consider its business operations will be adversely affected by its liabilities exceeding the 93% threshold.

Joint 1<sup>st</sup> mortgages are permitted to be made by the Company with other persons where each party's interests as 1<sup>st</sup> mortgagee is as a tenant in common and if the borrower defaults, the Company may exercise the power of sale conferred by the mortgage on behalf of all the parties.

The Company must be named as mortgagee in any mortgage or joint mortgage.

Irrespective of whether the Company's investment ability is limited to investment in a range of authorised investments or is unrestricted, the Company will continue to maintain its predominant business of the provision of finance to the public on the security of registered mortgages over real property.

As disclosed at Sections 3 and 5.2 of this Prospectus, the Company has been engaged to manage loans applied for, and granted to CEP Energy Pty Ltd. Although the Directors consider that this is an excellent opportunity to add incremental long-term income to the Company and which will supplement the Company's lending business, the Directors consider the Company's lending business will continue to be the predominant business of the Company in the near term.

### 7.2 How to Invest

To invest in Secured Notes, you must complete the Investment Application Form accompanying this Prospectus and, together with your cheque, lodge it at one of the Company's offices listed on page 5 of this Prospectus. Instructions can be found on the Investment Application Form.

Unless the Company otherwise agrees, a minimum initial investment of \$5,000.00 is applicable.

Subsequent investments may be for any amount. The Company may vary the products and minimum investment amounts from time to time. The Company reserves the right to accept or reject applications.

Joint Secured Note holders must indicate on the Investment Application Form whether the authority to operate the investment requires all or any one or more of the Secured Note holders to sign any written request to the Company. If no election is made, all joint Secured Note holders must sign all notices, requests or communications to the Company. All joint Secured Note holders must sign any documents relating to the transfer of Secured Notes or an application for replacement of a "Certificate of Secured Notes". The Company will acknowledge allotment of NBFISI Notes as soon as reasonably practicable and, in any event, within 21 days of receipt of application monies by forwarding to you a "Certificate of Secured Notes" for the "Fixed Term" investments. An investor already holding Secured Notes in a "Fixed Term" investment may request the Company to issue additional Secured Notes with a maturity date which is the same as the Secured Notes already held by the investor in that investment.

The Company, in its absolute discretion, may accept the request and issue the additional Secured Notes for the remaining period of that existing "Fixed Term" investment. In that event, the interest rate for the additional Secured Notes may differ to the interest rate

applicable in the existing Secured Notes. An investment receipt will be issued acknowledging the additional allotment of Secured Notes.

### 7.3 Payment of Interest

The Company issues Secured Notes with varying investment periods and interest rates. Secured Notes for a "Fixed Term" provide a fixed rate of interest for the period of the investment. Current interest rates and investment terms for Secured Notes are set out on the Interest Rate Card accompanying this Prospectus. Please confirm with the Company's registered office the interest rate and the investment period before you complete the Investment Application Form, to ensure that the terms and interest rates shown on the Interest Rate Card are current.

Interest accrues daily on all Secured Notes from the date the Company receives your application monies, except if received after 4.00pm in which event interest will accrue from the next business day that is not a Saturday or Sunday or proclaimed bank holiday in the State Office in which the office where the application is lodged is located.

Interest on "Fixed Term" investments is payable at maturity, except for 12, 24 and 36-month investments which pay interest monthly, quarterly, half yearly, yearly or on maturity in arrears from the date of investment as requested.

Interest may be added to the "Fixed Term" investment or transferred directly to another financial institution in accordance with your payment instructions.

The method of payment should be indicated by you on the Investment Application Form. Interest is automatically reinvested if no election is made. The Company will issue a "Certificate of Secured Notes" allotted recording the terms and conditions of each reinvestment.

Interest on existing 31-day access accounts is calculated on the last day of the month and is credited to that investment. The interest rates on existing 31-day access investments may be varied without notice. Holders of "Fixed Term" investments may vary their payment instructions from time to time by written request to the Company.

All interest payable on Secured Notes is secured under the Trust Deed. For further details refer to Section 10.1.

## 7.4 Variation of Interest Rates and Investment Terms Offered

During the currency of this Prospectus, the Company reserves the right to vary any of the interest rates or investment terms offered from time to time. A variation in interest rate or investment term will not affect Secured Notes of a "Fixed Term" investment already issued.

Where we receive your Investment Application Form and it does not specify an interest rate or term or specifies an interest rate which is not the current interest rate (i.e. the interest rate on the day the Investment Application form is received) for investments of the amount and the term specified in your Investment Application Form, the Company will at its option either: -

- (a) Repay the money received from you; or
- (b) Give you:
  - (i) a notice that informs you of the error and your rights to be repaid or to have the Secured Notes issued at the correct rate or term in accordance with ASIC Corporation (Debenture Prospectuses) Instrument 2016/75; and
  - (ii) 1 month to withdraw your Investment Application Form and be repaid; or

(c) Issue the Secured Notes to you at the current interest rate and give you;

- (i) the notice referred to in (b) (i) above; and
- (ii) 1 month to withdraw your Investment Application Form and be repaid.

When the interest rate specified on your Investment Application Form is higher than the current interest rate, the Company may elect to issue the Secured Notes to you at the higher interest rate.

### 7.5 Repayment of Principal and Interest

A "Fixed Term" investment, together with interest accrued, will be repaid in part or in full at its maturity date upon receipt of a written signed withdrawal request from the Secured Notes holders. Prior to the maturity date of a "Fixed Term" investment, the Company will notify the Secured Notes holder in writing, of the rates and terms upon which funds may be reinvested for a further period.

This pre- maturity letter will also state that the Company's current Prospectus document, together with any relevant ongoing disclosure documents, will be available from the Company website www.nbfisecuredinvestments.com. Investors who do not have access to the website may request a hard copy of these documents, free of charge, by contacting the Company directly through the contact details shown in the Corporate Directory at the front of this Prospectus. If written instructions are not received for a renewal of a "Fixed Term" investment 10 days before its maturity date by the Company, the "Fixed Term" investment shall, upon maturity, be reinvested, in the absolute discretion of NBFISI for a similar term at the current rate of interest payable at the time applicable to that term. A 'Certificate of Investment' will be forwarded confirming the reinvestment.

Payments are forwarded to the address of the Secured Notes holder in the Company register. For joint Secured Notes holders, payment is forwarded to the address of the 1<sup>st</sup> named holder. The Company should be notified of any change to the address of the Secured Notes holder. Payments are forwarded to the address of the Secured Notes holder identified in the Company register. For joint Secured Notes holders, payment is forwarded to the address of the first named holder. The Company should be notified of any change to the address of the Secured Notes holders, payment is forwarded to the address of the first named holder. The Company should be notified of any change to the address of the Secured Notes holder.

All requests should be signed in accordance with the authority to operate the investment indicated on the Investment Application Form.

The Company reserves the right to redeem early any Secured Notes by giving 30 days written notice to the holder and redemption may be with or without a premium.

## 7.6 Withdrawal before Maturity

The Company will consider requests by Secured Notes holders who, through unforeseen and exceptional circumstances or hardship, wish to withdraw the whole or part of a "Fixed Term" investment before its specified maturity. Withdrawal requests to 31 days' notice accounts will require at least 31 days' notice to be given to the Company.

In line with the Banking Exemption No. 2 of 2018, the Company may, upon written request from a retail investor at any time, pay to the investor some or all of the funds invested in Secured Notes, provided that the Company is satisfied that the investor has demonstrated that he or she is subject to exceptional circumstances that may lead to hardship and that it is appropriate to release the funds.

In the event of the death of a sole Secured Notes holder, the Company will pay to the Secured Notes holder's legal personal representative the whole or any part of the amount invested, subject to any legal requirements. In the event of death of a joint Secured Notes holder, the interest of the deceased joint Secured Notes holder will revert to the surviving joint Secured Notes holder or surviving joint Secured Notes holders.

The Company will consider early withdrawals from a "Fixed Term" investment, or exemptions to the 31 days' notice (for 31 days' notice accounts), only in cases of hardship and compassionate grounds as per the Company's Hardship Policy. In all circumstances, early repayment shall be at the absolute discretion of the Company and will only be permitted on the proviso that redemption does not materially impact the Company's liquidity position, or its capacity to meet near term obligations. Early redemptions will be subject to an adjustment of the rate of interest by 1% pa from the date of investment. Should insufficient interest have accrued at the date of redemption, this amount will be deducted from the principal investment sum. All withdrawal requests should be signed by the Secured Notes holder/s (or their legal personal representative/s) in accordance with the authority to operate the investment indicated on the Investment Application Form.

### 7.7 Security and Risk Assessment

Repayment of all monies that have been or may be invested with or lent to the Company for investment in Secured Notes is secured by a 1<sup>\*</sup> ranking registered fixed and floating charge to the Trustee for the benefit of Note holders as security for the repayment of capital and interest by the Company.

The assets that constitute the security for the charge given in favour of the Trustee is sufficient and is reasonably likely to be sufficient to meet the liability for repayment of all such monies (including investor's principal and interest) and all other liabilities ranking equally with, or in priority to the liabilities that have been or may be incurred.

The Trustee has a duty to exercise reasonable diligence to ascertain whether or not the property of the Company and any guarantor that is or should be available (whether by way of security or otherwise) will be sufficient to repay the amount deposited or lent when it becomes due and to ascertain whether or not the Company has committed any breach of the terms of the Trust Deed (further details are contained in Section 10.1 of this Prospectus) or of Chapter 2L of the Corporations Act. Neither the Trustee, its associates or related companies nor any of their respective officers, employees or agents nor the Directors or other officers or employees of the Company guarantee the obligations of the Company. The Trustee will exercise reasonable diligence to ascertain from the Directors Certificate, Directors Report or accounts made available to it under the Trust Deed, whether or not the Company or any guarantor has committed any breach of any obligations or provisions related to any Security Stock contained or imposed by the Trust Deed (further details are contained in Section 10.1 of this Prospectus).

The risk to you of any loss of capital or interest depends on the financial performance of the Company.

An assessment of the risks associated with an investment in Secured Notes should include consideration of the Company's assets (including mortgage securities), economic factors which may affect the ability of the Company's borrowers to meet loan commitments and the Company's financial performance. The financial performance of the Company will be affected by many factors, including fluctuations in market interest rates, government policy and the composition of the Company's investment and mortgage portfolio. Market interest rates may be influenced by government policies and general economic conditions. The investments of the Company are predominantly registered mortgages, and therefore investment performance and the prospects of the Company will be dependent on, amongst other things, prevailing mortgage interest rates, economic conditions and the interest rates applicable to the Company's loan portfolio. Interest rates paid by the Company are determined by the market conditions as a whole.

### 7.7.1 Inherent Key Risks and Their Management

Investors should be aware that an investment in Secured Notes is subject to a number of general and specific risks. <u>Specific risks</u> may be mitigated by safeguards, but <u>General risks</u>, (including regulatory, economic, political, social, and taxation risks) may be outside of the Company's control.

### Specific risks include:

- (A) Performance risks This is the risk of a loss to investors and depends upon the financial performance and future certainty of the Company and its ability to meet its commitments to you. The Company posted a profit of \$185,183for the half year ended 31 December 2021, (compared with a profit of \$126,903 for the half year ended 31 December 2020 and a loss of \$8,959 for the half year ended 31 December 2019) and a profit of \$351,047 for the year ended 30 June 2022. Please refer to the financial accounts in Section 8 of this Prospectus.
- (B) Loan default risk An inherent performance risk is that of a loan going into default, and the Company not receiving interest from the borrower for an extended period of time. The Company could be exposed to the risk of a reduction in property valuations if there was a significant decline in Australian property values. The Company believes it has appropriate policies to manage and control the level of risk as detailed in the Sections 5 and 7 of this Prospectus.

The average loan size to any one borrower at 30 June 2022 was \$130,057. The Company believes that its equity capital is sufficient to carry an average loan to its recovery stage, should there be a default. However, for as long as the Company has a relatively low level of Secured Notes on issue, any loans it makes will represent a significant percentage of its loan book and accordingly represent a greater concentration of lending risk than would be the case with a larger loan portfolio. ASIC identified that a main cause of companies failing was predominantly lending directly or indirectly to related corporations for risky developments. The Company has made no loans to related parties and currently has no exposure to development loans. It is the Company's intention not to advance more than 10% of its loan portfolio for development loans.

Due to the nature of the Company's business of providing finance in rural areas there is a risk that borrowers may have difficulty in meeting their obligations due to a variety of factors such as adverse climatic conditions for farmers, bad management practices or the death of a borrower to name a few. There is a risk in these circumstances that loans may fall into arrears by more than 90 days which may require the Company to commence recovery proceedings.

### 7.7.2 Lending policies

The Directors of the Company have adopted the following lending policies to manage and control the Company's level of risk:

- All loan applications must be approved by a majority of Directors.
- When assessing a loan application for approval, a complete application by the borrower is reviewed and an
  assessment is made of the borrower's financial capability to meet repayment requirements and the adequacy of
  security to be provided by the borrower.
- All loans require the security of a registered mortgage over real property, and for rural properties a mortgage over real property and where available a mortgage over a water share entitlement. The water share entitlement which is the subject of the "Mortgage of Water Share" security for the loan specifies an entitlement, access license, share or unit (by whatever named called) of the landowner or title holder of the real property which is the subject of the mortgage of real property for that loan.

A second mortgage will only be considered if the aggregated amount of the first and second mortgages does not exceed 80% of the value of the property concerned. All mortgages are registered.

- No funds are advanced without either
  - (i) a valuation report by a qualified valuer approved by the Trustee which indicates that the proposed loan does not exceed 80% of the value of the security offered unless the Company has the benefit of mortgage insurance:or
  - (ii) a municipal valuation which indicates that the proposed loan does not exceed 70% of the value of thesecurity.
- While the Company currently has no development loans, when considering an application for a property development loan, the market value of the development on completion would be used to calculate the loan to valuation ratio, in accordance with the Company's lending practice. The market value would be assessed by a qualified valuer approved by the Trustee.
- Loans relating to property development will be made on a progressive basis. The Company will restrict draw down of the loan based on the cost to complete the development, as assessed by an approved valuer or quantity surveyor approved by the Company, to ensure that the Company retains sufficient funds to complete the development without exceeding the Company's lending policies.
- The Company may approve a loan on the basis that interest will be capitalized to the loan balance each month and the clearance of the debt pending the sale of all or part of the security held. The Company requires that the aggregate of the loan and capitalized interest must not at any time exceed 70% of the value of the security for a development loan and 80% for a non-development loan.
- Where appropriate, the Company carries out credit checks or other independent enquiries in respect of loan applicants.
- The maximum loan amount to any one borrower (or that borrower's associates as defined in the Corporations Act is 10% of the total funds invested in Secured Notes at the time of the loan advance.
- The internal procedures of the Company include monthly monitoring of any default by the borrower in payment of principal and interest.
- Loans can be approved conditional upon the Company receiving a satisfactory valuation.

#### 7.8 Permitted Investments

The Trust Deed provides that the permitted investments will depend upon the level of the Company's assets and liabilities, except that the Company must at all times maintain seven and a half per cent of the principal moneys invested in, or deposited with, any of the following:

- (a) a bank;
- (b) a subsidiary of a bank;
- (c) bank accepted or endorsed bills of exchange;
- (d) an Australian Authorised Deposit-taking Institution (ADI);
- (e) a cash management trust or a cash common fund within the meaning of Part VII of the Trustee Companies Act 1984 of the State of Victoria or a corresponding State or Territory law;
- (f) bonds, stocks or other securities issued by, or guaranteed by, the government of the Commonwealth or of a State or Territory; or
- (g) a member of the Provisional Finance Group Inc. which holds an Australian Financial Services License.

Save for this restriction, the permitted investments are not otherwise restricted under the Trust Deed if, at the time an investment of monies invested with the Company in respect of Secured Notes is proposed to be made, the level of the Company's total external liabilities does not exceed 93% of its total tangible assets calculated in accordance with generally accepted accounting principles. (the 'capital adequacy ratio').

The Company can retain any investment it has made or renewed at a time when it satisfies the capital adequacy ratio even though the capital adequacy ratio may subsequently be exceeded, and the investment is not an authorised or permitted investment.

When the capital adequacy ratio is not met, the authorised or permitted investments for funds invested with the Company will be as follows:

1. Loans on mortgage of real property where:

- (a) the Company or a guaranteeing subsidiary is named as mortgagee in the mortgage; and
- (b) the amount advanced under the mortgage and any prior or equal ranking security in aggregate is no more than 80% of the value of the secured property as certified by an approved valuer; unless lenders insurance is in place and then the LVR may be greater than 80% under clause 11.2(a)(i)(b) of the Trust Deed; and
- (c) the total value of all such loans made by the Company to any one person and that person's associates shall not exceed ten percent (10%) of the principal monies at the time the loan (or any subsequent loan) is advanced by the Company to that person or the person's associates.
- 2. Loans on mortgage of real property and mortgage of water share/license where:
- (a) the water share which is the subject of the mortgage of water share for the loan specifies an entitlement, access license, share or unit (by whatever name called) of the landowner or title holder of the mortgage of real property for that loan; and
- (b) the Company or a guaranteeing subsidiary shall be named as mortgagee in the mortgage of real property and mortgagee in the mortgage of water share/license; and
- (c) the amount advanced under the mortgage of real property and mortgage of water share/license and any prior mortgage on the security of any real property and mortgage of water share/license shall not exceed 80% of the aggregate value of the real property and the water share as certified by an approved valuer and/or shall not exceed 80% of the aggregate value of the real property and the water share as respectively certified by an approved valuer and approved valuer and approved valuer of the real property and the water share as respectively certified by an approved valuer and approved valuer and approved water broker unless the Company has the benefit of insurance of the amount of the loan which exceeds 80% of the aggregate value of the real property and water share/license; and
- (d) the total value of all such loans made by the Company to any one person or that person's associates (as defined in the Corporations) shall not exceed 10% of the monies invested with the Company in respect of issued Secured Notes at the time the loan (or any subsequent loan) is advanced by the Company to that person or the person's associates.
- 3. Investment in real property provided that no more than 10% of the monies invested with the Company in respect of issued Secured Notes is invested in real property;
- 4. Monies on deposit with, or invested with, one or more of the following:
- (a) a bank
- (b) a subsidiary of a bank
- (c) bank accepted or endorsed bills of exchange;
- (d) an Authorised Deposit Taking Institution;
- (e) a cash management trust or a cash common fund within the meaning of Part VII of the Trustee Companies Act 1984 (Victoria) or a corresponding State or Territory law;
- (f) bonds, stocks, or other securities issued by, or guaranteed by, the Government of the Commonwealth or of a State or Territory or local government authority of Australia;
- (g) any authority under the Water Act 1989 or any License under the Water Industry Act 1994 (Victoria) and the Water Management Act 2000 NSW);
- (h) a member of the Provisional Finance Group Inc. which holds an Australian Financial Services License;
- (i) a public authority.
- 5. Deposit with, loan to, or purchase of, bills of exchange, promissory notes, certificates of deposit or other negotiable instruments which are accepted, drawn or endorsed by a Public Authority at the time of the deposit, loan or purchase;
- 6. A loan to any person where:
- (a) the Company has security rights or a right of contractual set-off on such terms and conditions acceptable to the Company over Secured Notes issued by the Company for an amount of not less than 100% of the amount advanced under any such loan; and
- (b) if the borrower is not the person providing the Secured Notes as security, a holder of the Secured Notes must also guarantee and indemnify the Company or a guarantor in respect of the obligations and liabilities of the borrower under such loan on such terms acceptable to the Company before any such loan is made.
- 7. Any investment in a person which has:
- (a) a credit rating issued by Standard & Poor's (Australia) Pty Limited and its affiliates of 'AA' or higher; or

- (b) an equivalent credit rating issued by a ratings agency approved by the Trustee.
- 8. Any investment in securities which have:
- (a) a credit rating issued by Standard & Poor's (Australia) Pty Limited and its affiliates of 'AA' or higher for long term securities or 'A1+' or higher for short term securities; or
- (b) an equivalent credit rating issued by a ratings agency approved by the Trustee.
- 9. Any investment in which a Trustee may invest trust funds under Part 1 of the Trustee Act 1958 (Victoria) provided that no more than 10% of the monies invested with the Company in respect of issued Secured Notes is invested in such investments.

Irrespective of whether the Company's investment ability is limited to investment in a range of authorised or permitted investments or is unrestricted, the Company's present intention is to continue to maintain its predominant business of the provision of finance to the public on the security of registered mortgages over real property and water share/licenses in Australia with the money advanced not exceeding 80% of the 'as is value' of the security property.

Subject to prior written notification of the Trustee, joint mortgages are permitted to be made by the Company with other persons where each party's interest as mortgagee is as a tenant in common and if the borrower defaults any party may exercise the power of sale conferred by the mortgage on behalf of all the parties. The Company must be named as mortgagee in any mortgage or joint mortgage. For any such investment that constitutes an investment in a managed investment scheme, the scheme is to be registered if it is required by law to be registered.

## 7.9 Fees and Brokerage

No entry or exit fees apply to an investment in Secured Notes pursuant to this Prospectus. The Company may elect to pay fixed brokerage and/or trail commissions to Australian Financial Services Licensees, their authorised representatives or other persons permitted by law on applications received from them. If so, the maximum rate for fixed brokerage will be up to 1 percent of the amount subscribed for Secured Notes and the maximum trail commission will be up to one (1) percent per annum of the amount subscribed. No brokerage or trailing commission is payable by the Secured Note holder/s.

Federal and State government taxes payable on investments and withdrawals are passed on to the Secured Notes holders.

The financial report covers NBFI Secured Investments Ltd as an individual entity. NBFI Secured Investments Ltd is a forprofit Company limited by shares, incorporated and domiciled in Australia.

The functional and presentation currency of NBFI Secured Investments Ltd is Australian dollars.

The financial report was authorised for issue by the Directors on .

Comparatives are consistent with prior years, unless otherwise stated.

## 1 Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with the Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001*.

## 2 Summary of Significant Accounting Policies

### (a) Revenue and other income

## Specific revenue streams

The revenue recognition policies for the principal revenue streams of the Company are:

### **Revenue recognition**

### Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the consolidated entity is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated entity: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer other goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

### Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered based on either a fixed price or an hourly rate.

### Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Debenture Interest and Late fees are the specific revenue streams

# For the Period Ended 30 June 2021

## Other income

Other income is recognised on an accruals basis when the Company is entitled to it.

### (b) Income Tax

The tax expense recognised in the statement of profit or loss and other comprehensive income comprises current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.
- Temporary differences related to investment in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

## (c) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

## (d) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Entity is not registered for GST and the majority of the income is interest based.

## For the Period Ended 30 June 2021

## (e) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

### Plant and equipment

Plant and equipment are measured using the cost model.

### Depreciation

Property, plant and equipment, excluding freehold land, is depreciated on a straight-line basis over the assets useful life to the Company, commencing when the asset is ready for use.

The depreciation rates used for each class of depreciable asset are shown below:

Fixed asset class	Depreciation rate
Motor Vehicles	33.3%
Office Equipment	20% - 100%

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

## (f) Investment property

Investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the statement of profit or loss and other comprehensive income as other income/expenses.

### (g) Financial instruments

Financial instruments are recognised initially on the date that the Company becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

## **Financial assets**

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

### Classification

On initial recognition, the Company classifies its financial assets into the following categories, those measured at:

- amortised cost
- fair value through profit or loss FVTPL

# For the Period Ended 30 June 2021

- fair value through other comprehensive income equity instrument (FVOCI equity)
- fair value through other comprehensive income debt investments (FVOCI debt)

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets.

## Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows are solely payments of principal and interest on the principal amount outstanding.

The Company's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

### Fair value through other comprehensive income

### Equity instruments

The Company has a number of strategic investments in listed and unlisted entities over which are they do not have significant influence nor control. The Company has made an irrevocable election to classify these equity investments as fair value through other comprehensive income as they are not held for trading purposes.

These investments are carried at fair value with changes in fair value recognised in other comprehensive income (financial asset reserve). On disposal any balance in the financial asset reserve is transferred to retained earnings and is not reclassified to profit or loss.

Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI.

## Financial assets through profit or loss

All financial assets not classified as measured at amortised cost or fair value through other comprehensive income as described above are measured at FVTPL.

Net gains or losses, including any interest or dividend income are recognised in profit or loss (refer to hedging accounting policy for derivatives designated as hedging instruments.)

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

# For the Period Ended 30 June 2021

### Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost
- debt investments measured at FVOCI

When determining whether the credit risk of a financial assets has increased significant since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Company uses the presumption that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Company in full, without recourse to the Company to actions such as realising security (if any is held); or
- the financial assets is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Company in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

### Trade receivables and contract assets

Impairment of trade receivables and contract assets have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Company has determined the probability of non-payment of the receivable and contract asset and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account with the loss being recognised in finance expense. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Company renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

### Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

# For the Period Ended 30 June 2021

### **Financial liabilities**

The Company measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Company comprise trade payables, bank and other loans and lease liabilities.

### (h) Intangible assets

## Software

Software has a finite life and is carried at cost less any accumulated amortisation and impairment losses. It has an estimated useful life of between one and three years.

## Amortisation

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

## (i) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Bank overdrafts also form part of cash equivalents for the purpose of the statement of cash flows and are presented within current liabilities on the statement of financial position.

## (j) Going concern

The financial report has been prepared on a going concern basis that considers the continuity of normal operating activities and the realisation of assets and settlement of liabilities in the normal operating activities and the realisation of asset and settlements of liabilities in the normal course of business.

The company's main activity is to accept deposits of monies via debentures from investor and then on lend the funds invested on the security of registered mortgages over real property in Australia.

At 30 June 2021 the net assets of the company were \$924,346. Included in the net assets are liabilities with respect to debentures of \$6,443,259. At balance date the company's total assets were \$7,386,116 including cash and cash equivalents of \$4,455,723.

## For the Period Ended 30 June 2021

## (k) Calculation of Recoverable Amount

The recoverable amount of the entity's investments in receivables carried at amortised cost is calculated as the present value of estimated future cashflows, discounted at the original effective interest rate (ie the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted.

Impairment of receivables is not recognised until objective evidence is available that a loss event has occurred. Significant receivables are individually assessed for impairment, Impairment testing's of significant receivables that are not as impaired individually is performed by planning them into portfolios of significant receivables with similar risk profiles and undertaking a collective assessment of impairment. Nonsignificant receivables are not individually assessed. Instead, impairment testing is performed is performed by placing non significant receivables in portfolios of similar risk profiles, based on objective evidence from historical experience adjuster for any effect of conditions exiting at each balance date.

The recoverable amount of other assets is the greater of their fair value less costs to sell and value is use. In accessing value in use, the estimated future cashflows are discounted to their present value using a pre tax discounted rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that doesn't to generate largely independent cash in flows, the recoverable am amount is determine for the cash generating until to which the asset belongs.

## 3 Critical Accounting Estimates and Judgments

The directors make estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and judgements made have been described below.

### Key estimates - impairment of property, plant and equipment

The Company assesses impairment at the end of each reporting period by evaluating conditions specific to the Company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

With respect to cash flow projections for plant and equipment based in Australia, growth rates of -% have been factored into valuation models for the next five years on the basis of management's expectations around the Company's continued ability to capture market share from competitors. Cash flow growth rates of -% subsequent to this period have been used as this reflects historical industry averages. Cash flow projections used for non-monetary assets outside of Australia have been based on growth rates of -%. The rates used incorporate allowance for inflation. Pre-tax discount rates of -% have been used in all models.

## Key estimates - fair value of financial instruments

The Company has certain financial assets and liabilities which are measured at fair value. Where fair value has not able to be determined based on quoted price, a valuation model has been used. The inputs to these models are observable, where possible, however these techniques involve significant estimates and therefore fair value of the instruments could be affected by changes in these assumptions and inputs.

# For the Period Ended 30 June 2021

### Key estimates - receivables

The receivables at reporting date have been reviewed to determine whether there is any objective evidence that any of the receivables are impaired. An impairment provision is included for any receivable where the entire balance is not considered collectible. The impairment provision is based on the best information at the reporting date.

### Key estimates - Loans

Management uses independent valuations in conjunction with other credit assessment material in determining whether a potential borrower has adequate security and in turn determining the likelihood of recovering the loan advance that is to be made. All realty property must be valued by an independent licenses valuer appointed by the company before a loan is made. The valuation is used to determine the maximum loan amount to be advanced taking into account the following Loan to Valuation Ratios (LVR).

- Residential Land 70%
- Industrial Land 70%
- Commercial Land 70%
- Rural Land 70%

The outcome of the analysis may determine whether or not the company will make a loan, the amount of any such loan in terms of the maximum LVR and the length of the loan term. In terms of provisioning against loans, the Board meets on a monthly basis and reviews all loans which have indicators of impairment. Where there is objective evidence of impairment, the Board assess the recoverability of a loan by preparing a discounted cashflows. The cash flow requires critical judgements to be made on the timing of the cash inflows and outflows in addition to the actual amounts recovered. The cashflows judgements to be made on the timing of the cash inflows and outflows in determining the recoverability of the loan. If the principal and unpaid interest and fees falls short of the discounted cashflows total , then a provision equal to the shortfall is adopted by the Board. Once the recommendation is approved by the Board a provision is made against the loan.

The Board believe that the chosen valuation techniques and assumptions used are appropriate in determining the recoverability of impaired loans.

### Key estimates - Impairment

The company assesses impairment at each reporting date by evaluating conditions specific to the Company that may lead to the impairment of assets. Where an impairment trigger exits, the recoverable amount of the asset is determined. Value-in-use calculations which incorporate key estimates, are performed in assessing recoverable amounts.

(b) Income tax relating to each component of other comprehensive income:

(c) Amounts recognised directly in equity

220,554

151,476

118,910

## For the Period Ended 30 June 2021

Aggregate current and deferred tax arising in the reporting period and not recognised in net profit or loss or other comprehensive income but directly debited or credited to equity.

## 6 Cash and Cash Equivalents

2021	
\$	
2020	
\$	

Cash at bank and in hand	446,928	251,994
Other cash and cash equivalents	4,008,795	2,497,317
	4,455,723	2,749,311

## **Reconciliation of cash**

7

Cash and Cash equivalents reported in the statement of cash flows are reconciled to the equivalent items in the statement of financial position as follows:

·		2021	2020
		\$	\$
Cash and cash equivalents		4,455,723	2,749,311
Bank overdrafts	13	(177)	-
Balance as per statement of cash flows	-	4,455,546	2,749,311
Trade and Other Receivables			
		2021	2020
		\$	\$
CURRENT			
Trade receivables		-	1,257
Accrued Interest Loans		3,892	9,721
Accrued Interest Investments	_	275,629	121,426
Total current trade and other receivables	_	279,521	132,404

The carrying value of trade receivables is considered a reasonable approximation of fair value due to the short-term nature of the balances.

The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable in the financial statements.

Financial liabilities		
Financial liabilities at cost	6,461,770	6,182,519
Total financial liabilities	6,461,770	6,182,519

## Objectives, policies and processes

The Board of Directors have overall responsibility for the establishment of NBFI Secured Investments Ltd's financial risk management framework. This includes the development of policies covering specific areas such as foreign exchange risk, interest rate risk, liquidity risk, credit risk and the use of derivatives.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and NBFI Secured Investments Ltd's activities.

The day-to-day risk management is carried out by NBFI Secured Investments Ltd's finance function under policies and objectives which have been approved by the Board of Directors. The Chief Financial Officer has been delegated the authority for designing and implementing processes which follow the objectives and policies. This includes monitoring the levels of exposure to interest rate and foreign exchange rate risk and assessment of market forecasts for interest rate and foreign exchange movements.

The Board of Directors receives monthly reports which provide details of the effectiveness of the processes and policies in place.

Mitigation strategies for specific risks faced are described below:

## Liquidity risk

Liquidity risk arises from the Company's management of working capital and the finance charges and principal repayments on its debt instruments. It is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities as and when they fall due. The Company maintains cash and marketable securities to meet its liquidity requirements for up to 30-day periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

The Company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term

## For the Period Ended 30 June 2021

financial liabilities as well as cash-outflows due in day-to-day business.

Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a 360-day period are identified monthly.

At the reporting date, these reports indicate that the Company expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances and will not need to draw down any of the financing facilities.

Financial guarantee liabilities are treated as payable on demand since NBFI Secured Investments Ltd has no control over the timing of any potential settlement of the liabilities.

The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward. The amounts disclosed in the table are the undiscounted contracted cash flows and therefore the balances in the table may not equal the balances in the statement of financial position due to the effect of discounting.

#### **Credit risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company.

Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposure to wholesale and retail customers, including outstanding receivables and committed transactions.

The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

#### Trade receivables and contract assets

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Company has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company review includes external ratings, if they are available, financial statements, credit agency information and industry information. Credit limits are established for each customer and the utilisation of credit limits by customers is regularly monitored by line management. Customers who subsequently fail to meet their credit terms are required to make purchases on a prepayment basis until creditworthiness can be re-established.

The Board receives monthly reports summarising the turnover, trade receivables balance and aging profile of each of the key customers individually and the Company's other customers analysed by industry sector as well as a list of customers currently transacting on a prepayment basis or who have balances in excess of their credit limits.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which the customers operate.

Management considers that all the financial assets that are not impaired for each of the reporting dates under review are of good credit quality, including those that are past due.

The Company has no significant concentration of credit risk with respect to any single counterparty or group of counterparties.

## For the Period Ended 30 June 2021

#### (i) Interest rate risk

The Company is exposed to interest rate risk as funds are borrowed at floating and fixed rates. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. Longer-term borrowings are therefore usually at fixed rates. At the reporting date, the Company is exposed to changes in market interest rates through its bank borrowings, which are subject to variable interest rates.

#### Sensitivity analysis

The following table illustrates the sensitivity of the net result for the year and equity to a reasonably possible change in interest rates of +1.00% and -1.00% (2020: +1.00%/-1.00%), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions and economist reports.

The calculations are based on the financial instruments held at each reporting date. All other variables are held constant.

#### (ii) Price risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices of securities held being available-for-sale or fair value through profit and loss.

Such risk is managed through diversification of investments across industries and geographic locations.

## 16 Fair Value Measurement

The Company measures the following assets and liabilities at fair value on a recurring basis:

Investment property

#### 17 Contingencies

In the opinion of the Directors, the Company did not have any contingencies at 30 June 2021 (30 June 2020:None).

## 18 Related Parties

## (a) The Company's main related parties are as follows:

The ultimate parent entity, which exercises control over the Company, is NBFI Holdings which is incorporated in Australian and owns 100% of NBFI Secured Investments Ltd.

Other related parties include close family members of key management personnel and entities that are controlled or significantly influenced by those key management personnel or their close family members.

#### 19 Events Occurring After the Reporting Date

The financial report was authorised for issue on 13 August 2021 by the board of directors.

## For the Period Ended 30 June 2021

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

## 20 Statutory Information

The registered office of the company is: NBFI Secured Investments Ltd Lvl 24 Tower 2 101 Grafton Street Bondi Junction NSW 2022

The principal place of business is: NBFI Secured Investments Ltd Lvl 1 274-290 Victoria Street Darlinghurst NSW 2010

## Independent Audit Report to the members of NBFI Secured Investments Ltd

## Report on the Audit of the Financial Report Opinion

I have audited the financial report of NBFI Secured Investments Ltd (the Company), which comprises the statement of financial position as at 30 June 2021, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In my opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001,* including:

(i) giving a true and fair view of the Company's financial position as at 30 June 2021 and of its financial performance for the year ended; and

(ii) complying with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Regulations 2001.* 

## **Basis for Opinion**

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled our other ethical responsibilities in accordance with the Code.

I confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## **Responsibilities of Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable

Liability limited by a scheme approved under Professional Standards Legislation.

## Independent Audit Report to the members of NBFI Secured Investments Ltd

assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the directors with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, I determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Chartered Accountant.

## Directors' Report For the Period Ended 30 June 2022

The directors present their report on NBFI Secured Investments Ltd for the financial year ended 30 June 2022.

## 3 General information

### on directors

The names of each person who has been a director during the year and to the date of this report are: Henry Pinskier Peter David Wright Geoffrey John Wensley Craig Stephen Hitchings

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

## **Principal activities**

The principal activity of NBFI Secured Investments Ltd during the financial year was Debenture and Borrowing facilities.

No significant changes in the nature of the Company's activity occurred during the financial year.

#### 4 Operating results and review of operations for the year

#### **Operating results**

The profit of the Company before providing for income tax amounted to \$351,047 (2021: \$350,995).

## 5 Other items

## Significant changes in state of affairs

There have been no significant changes in the state of affairs of the Company during the year.

#### Matters or circumstances arising after the end of the year

No matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in future financial years.

## Future developments and results

Likely developments in the operations of the Company and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Company.

## **Environmental matters**

The Company's operations are not regulated by any significant environmental regulations under a law of the Commonwealth or of a state or territory.

ABN 91 111 607 606

## Directors' Report For the Period Ended 30 June 2022

## **Company secretary**

Geoffrey John Wensley held the position of Company secretary at the end of the financial year:

## Indemnification and insurance of officers and auditors

All Directors of NBFI Investment are covered by PI to the value of \$2.5 Million

### Auditor's independence declaration

The lead auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001*, for the year ended 30 June 2022 has been received and can be found on page 3 of the financial report.

Signed in accordance with a resolution of the Board of Directors:

## Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of NBFI Secured Investments Ltd

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2022, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

The financial report covers NBFI Secured Investments Ltd as an individual entity. NBFI Secured Investments Ltd is a forprofit Company limited by shares, incorporated and domiciled in Australia.

The functional and presentation currency of NBFI Secured Investments Ltd is Australian dollars.

Comparatives are consistent with prior years, unless otherwise stated.

## (h) Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with the Australian Accounting Standards Simplified Disclosure requirements and the *Corporations Act 2001*.

## (i) Summary of Significant Accounting Policies

#### Revenue and other income

#### Revenue from contracts with customers

The core principle of AASB 15 is that revenue is recognised on a basis that reflects the transfer of promised goods or services to customers at an amount that reflects the consideration the Company expects to receive in exchange for those goods or services.

Generally the timing of the payment for sale of goods and rendering of services corresponds closely to the timing of satisfaction of the performance obligations, however where there is a difference, it will result in the recognition of a receivable, contract asset or contract liability.

None of the revenue streams of the Company have any significant financing terms as there is less than 12 months between receipt of funds and satisfaction of performance obligations.

#### Other income

Other income is recognised on an accruals basis when the Company is entitled to it.

#### Income Tax

The tax expense recognised in the statement of profit or loss and other comprehensive income comprises current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

ABN 91 111 607 606

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.
- Temporary differences related to investment in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

## Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

## Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Entity is registered for GST and the majority of the income is interest based.

Receivables and payable are stated inclusive of GST.

Cash flows in the statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

## (k) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

## Plant and equipment

Plant and equipment are measured using the cost model.

#### Depreciation

Property, plant and equipment, excluding freehold land, is depreciated on a straight-line basis over the assets useful life to the Company, commencing when the asset is ready for use.

The depreciation rates used for each class of depreciable asset are shown below:

Fixed asset class	Depreciation rate
Motor Vehicles	33.3%
Office Equipment	20% - 100%

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

#### (I) Investment property

Investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the statement of profit or loss and other comprehensive income as other income/expenses.

## (m) Financial instruments

Financial instruments are recognised initially on the date that the Company becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

#### **Financial assets**

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

## Classification

On initial recognition, the Company classifies its financial assets into the following categories, those measured at:

- amortised cost
- fair value through profit or loss FVTPL
- fair value through other comprehensive income equity instrument (FVOCI equity)

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

• fair value through other comprehensive income - debt investments (FVOCI - debt)

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets.

## Amortised cost

The Company's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Fair value through other comprehensive income

#### Equity instruments

The Company has a number of strategic investments in listed and unlisted entities over which are they do not have significant influence nor control. The Company has made an irrevocable election to classify these equity investments as fair value through other comprehensive income as they are not held for trading purposes.

These investments are carried at fair value with changes in fair value recognised in other comprehensive income (financial asset reserve). On disposal any balance in the financial asset reserve is transferred to retained earnings and is not reclassified to profit or loss.

Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI.

Financial assets through profit or loss

All financial assets not classified as measured at amortised cost or fair value through other comprehensive income as described above are measured at FVTPL.

Net gains or losses, including any interest or dividend income are recognised in profit or loss (refer to hedging accounting policy for derivatives designated as hedging instruments.)

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

#### Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost
- debt investments measured at FVOCI

When determining whether the credit risk of a financial assets has increased significant since initial recognition and

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Company uses the presumption that a financial asset is in default when:

- (d) the other party is unlikely to pay its credit obligations to the Company in full, without recourse to the Company to actions such as realising security (if any is held); or
- (e) the financial assets is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Company in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

#### Trade receivables and contract assets

Impairment of trade receivables and contract assets have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Company has determined the probability of non-payment of the receivable and contract asset and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account with the loss being recognised in finance expense. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Company renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

#### Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

#### **Financial liabilities**

The Company measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Company comprise trade payables, bank and other loans and lease liabilities.

#### (h) Intangible assets

#### Software

Software has a finite life and is carried at cost less any accumulated amortisation and impairment losses. It has an estimated useful life of between one and three years.

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

## Amortisation

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### • Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Bank overdrafts also form part of cash equivalents for the purpose of the statement of cash flows and are presented within current liabilities

on the statement of financial position.

#### Going concern

The financial report has been prepared on a going concern basis that considers the continuity of normal operating activities and the realisation of assets and settlement of liabilities in the normal operating activities and the realisation of asset and settlements of liabilities in the normal course of business.

The company's main activity is to accept deposits of monies via debentures from investor and then on lend the funds invested on the security of registered mortgages over real property in Australia.

At 30 June 2022 the net assets of the company were \$1,275,393. Included in the net assets are liabilities with respect to debentures of \$7,473,531. At balance date the company's total assets were \$8,783,9710 including cash and cash equivalents of \$6,803,250.

## Calculation of Recoverable Amount

The recoverable amount of the entity's investments in receivables carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted.

Impairment of receivables is not recognised until objective evidence is available that a loss event has occurred. Significant receivables are individually assessed for impairment, Impairment testing's of significant receivables that are not as impaired individually is performed by planning them into portfolios of significant receivables with similar risk profiles and undertaking a collective assessment of impairment. Non-significant receivables are not individually assessed. Instead, impairment testing is performed by placing non-significant receivables in portfolios of similar risk profiles, based on objective evidence from historical experience adjuster for any effect of conditions existing at each balance date.

The recoverable amount of other assets is the greater of their fair value less costs to sell and value in use. In accessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that doesn't to generate largely independent cash inflows, the recoverable amount is determined for the cash-generating until to which the asset belongs

#### 3 Critical Accounting Estimates and Judgments

The directors make estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

ABN 91 111 607 606

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and judgements made have been described below.

#### Key estimates - impairment of property, plant and equipment

The Company assesses impairment at the end of each reporting period by evaluating conditions specific to the Company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

#### Key estimates - fair value of financial instruments

The Company has certain financial assets and liabilities which are measured at fair value. Where fair value has not able to be determined based on quoted price, a valuation model has been used. The inputs to these models are observable, where possible, however these techniques involve significant estimates and therefore fair value of the instruments could be affected by changes in these assumptions and inputs.

#### Key estimates - receivables

The receivables at reporting date have been reviewed to determine whether there is any objective evidence that any of the receivables are impaired. An impairment provision is included for any receivable where the entire balance is not considered collectible. The impairment provision is based on the best information at the reporting date.

## Key estimates - Loans

Management uses independent valuations in conjunction with other credit assessment material in determining whether a potential borrower has adequate security and in turn determining the likelihood of recovering the loan advance that is to be made. All realty property must be valued by an independent licenses valuer appointed by the company before a loan is made. The valuation is used to determine the maximum loan amount to be advanced taking into account the following Loan to Valuation Ratios (LVR).

- (iii) Residential Land 70%
- (iv) Industrial Land 70%
- (v) Commercial Land 70%
- (vi) Rural Land 70%

The outcome of the analysis may determine whether or not the company will make a loan, the amount of any such loan in terms of the maximum LVR and the length of the loan term. In terms of provisioning against loans, the Board meets on a monthly basis and reviews all loans which have indicators of impairment. Where there is objective evidence of impairment, the Board assess the recoverability of a loan by preparing a discounted cashflows. The cash flow requires critical judgements to be made on the timing of the cash inflows and outflows in addition to the actual amounts recovered. The cashflows judgements to be made on the timing of the cash inflows and outflows in determining the recoverability of the loan. If the principal and unpaid interest and fees falls short of the discounted cashflows total , then a provision equal to the shortfall is adopted by the Board. Once the recommendation is approved by the Board a provision is made against the loan.

The Board believe that the chosen valuation techniques and assumptions used are appropriate in determining the recoverability of impaired loans.

ABN 91 111 607 606

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

## Key estimates - Impairment

The company assesses impairment at each reporting date by evaluating conditions specific to the Company that may lead to the impairment of assets. Where an impairment trigger exits, the recoverable amount of the asset is determined. Value-in-use calculations which incorporate key estimates, are performed in assessing recoverable amounts.

## 4 Revenue and Other Income

	2022 \$	2021 \$
Revenue		
Interest	218,647	393,290
CEP Fee income	975,000	670,000
Interest penalty	-	13,639
Total Revenue	1,193,647	1,076,929

## **Result for the Year**

## The result for the year includes the following specific expenses:

Other expenses:		
Advertising	2,280	2,249
ASIC Fees	7,344	15,392
Computer Software	9,522	10,035
Insurance	146,424	151,691
Trustee Fees	60,000	66,000

#### 5 Income Tax Expense

(a) Reconciliation of income tax to accounting profit: Prima facie tax payable on profit from ordinary activities before income tax at 25%(2021: 26%)	87,762	105,298
Add:		
Tax effect of:		
- non-deductible depreciation and amortisation	25,135	25,896
	112,897	131,194
Less:		
Tax effect of:		
- Depreciation	25,135	25,896
Income Tax Loss	87,762	105,298

(b) Tax expense has not been included in the statement of profit or loss and other comprehensive income to the large

ABN 91 111 607 606

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

amount of losses the company has carried forward. The company will review this approach in the next twelve months as the company has been working on its business structure and the business as increased its profitability over the last few years. :

### 6 Cash and Cash Equivalents

	2022	2021
	\$	\$
Cash at bank and in hand	128,934	446,928
CEP deposit	275,000	-
Other cash and cash equivalents	6,399,316	4,008,795
	6,803,250	4,455,723

## **Reconciliation of cash**

7

Cash and Cash equivalents reported in the statement of cash flows are reconciled to the equivalent items in the statement of financial position as follows:

Cash and cash equivalents		6,803,250	4,455,723
Bank overdrafts	13	(177)	(177)
Balance as per statement of cash flows	_	6,803,073	4,455,546
Trade and Other Receivables			
CURRENT			
Accrued Interest Loans		-	3,892
Accrued Interest Investments	_	333,070	275,629
Total current trade and other receivables		333,070	279,521

The carrying value of trade receivables is considered a reasonable approximation of fair value due to the short-term nature of the balances.

The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable in the financial statements.

ABN 91 111 607 606

9

## Notes to the Financial Statements

## **10 Investment Properties**

	2022	2021
	\$	\$
At fair value		
Owned Property		
Balance at beginning of year	594,716	560,558
Balance at end of year	594,716	560,558
Total Investment Properties	594,716	560,558

Investment property includes properties that are held as right to use assets, as well as properties that are owned by the Company.

No independent valuation was completed during the 2021 year.

The directors have reviewed the value of the current investment property and the state of the real estate market generally and feel that it is not necessary to impair the value of the investment property. The directors consider that the current value to be reflective of the market value at the time of signing 2022.

ABN 91 111 607 606

## Notes to the Financial Statements

## For the Year Ended 30 June 2022

Trade and other payables are unsecured, non-interest bearing and are normally settled within 30 days. The carrying value of trade and other payables is considered a reasonable approximation of fair value due to the short-term nature of the balances.

## **GST Volunteer Registration**

During the 2022 financial year the directors applied to become registered for GST. This was approved by the ATO including a retrospective lodgement of the 2019, 2020 and 2021 financial year. This has had a positive effect on the losses of the entity for those years to the value of \$30,000. We have not adjusted the comparatives regarding this matter.

Total financial liabilities	7,508,577	6,461,770

#### **Objectives, policies and processes**

The Board of Directors have overall responsibility for the establishment of NBFI Secured Investments Ltd's financial risk management framework. This includes the development of policies covering specific areas such as foreign exchange risk, interest rate risk, liquidity risk, credit risk and the use of derivatives.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and NBFI Secured Investments Ltd's activities.

The day-to-day risk management is carried out by NBFI Secured Investments Ltd's finance function under policies and objectives which have been approved by the Board of Directors. The Chief Financial Officer has been delegated the authority for designing and implementing processes which follow the objectives and policies. This includes monitoring the levels of exposure to interest rate and foreign exchange rate risk and assessment of market forecasts for interest rate and foreign exchange movements.

The Board of Directors receives monthly reports which provide details of the effectiveness of the processes and policies in place.

Mitigation strategies for specific risks faced are described below:

#### Liquidity risk

Liquidity risk arises from the Company's management of working capital and the finance charges and principal repayments on its debt instruments. It is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities as and when they fall due. The Company maintains cash and marketable securities to meet its liquidity requirements for up to 30-

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

day periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

The Company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash-outflows due in day-to-day business.

Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a 360-day period are identified monthly.

At the reporting date, these reports indicate that the Company expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances and will not need to draw down any of the financing facilities.

Financial guarantee liabilities are treated as payable on demand since NBFI Secured Investments Ltd has no control over the timing of any potential settlement of the liabilities.

The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward. The amounts disclosed in the table are the undiscounted contracted cash flows and therefore the balances in the table may not equal the balances in the statement of financial position due to the effect of discounting.

#### Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company.

Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposure to wholesale and retail customers, including outstanding receivables and committed transactions.

The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

#### Trade receivables and contract assets

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Company has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company review includes external ratings, if they are available, financial statements, credit agency information and industry information. Credit limits are established for each customer and the utilisation of credit limits by customers is regularly monitored by line management. Customers who subsequently fail to meet their credit terms are required to make purchases on a prepayment basis until creditworthiness can be re-established.

The Board receives monthly reports summarising the turnover, trade receivables balance and aging profile of each of the key customers individually and the Company's other customers analysed by industry sector as well as a list of customers currently transacting on a prepayment basis or who have balances in excess of their credit limits.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which the customers operate.

Management considers that all the financial assets that are not impaired for each of the reporting dates under review are of good credit quality, including those that are past due.

ABN 91 111 607 606

## Notes to the Financial Statements For the Year Ended 30 June 2022

The Company has no significant concentration of credit risk with respect to any single counterparty or group of counterparties.

#### (i) Interest rate risk

The Company is exposed to interest rate risk as funds are borrowed at floating and fixed rates. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. Longer-term borrowings are therefore usually at fixed rates. At the reporting date, the Company is exposed to changes in market interest rates through its bank borrowings, which are subject to variable interest rates.

#### Sensitivity analysis

The following table illustrates the sensitivity of the net result for the year and equity to a reasonably possible change in interest rates of +1.50% and -1.50% (2021: +1.00%/-1.00%), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions and economist reports.

The calculations are based on the financial instruments held at each reporting date. All other variables are held constant.

#### (ii) Price risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices of securities held being available-for-sale or fair value through profit and loss.

Such risk is managed through diversification of investments across industries and geographic locations.

#### 16 Fair Value Measurement

The Company measures the following assets and liabilities at fair value on a recurring basis:

Investment property

#### 17 Contingencies

In the opinion of the Directors, the Company did not have any contingencies at 30 June 2022 (30 June 2021:None).

#### 18 Related Parties

The ultimate parent entity, which exercises control over the Company, is NBFI Holdings which is incorporated in Australian and owns 100% of NBFI Secured Investments Ltd. Other related parties include close family members of key management personnel and entities that are controlled or significantly influenced by those key management personnel or their close family members.

### **Directors' Declaration**

The directors of the Company declare that:

- 1. The financial statements and notes, as set out on pages 4 to 24, are in accordance with the *Corporations Act 2001* and:
  - a. comply with Australian Accounting Standards Reduced Disclosure Requirements; and
  - b. give a true and fair view of the financial position as at 30 June 2022 and of the performance for the year ended on that date of the Company.
- 2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

## Independent Audit Report to the members of NBFI Secured Investments Ltd

#### Report on the Audit of the Financial Report

#### Opinion

I have audited the financial report of NBFI Secured Investments Ltd (the Company), which comprises the statement of financial position as at 30 June 2022, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In my opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- (b) giving a true and fair view of the Company's financial position as at 30 June 2022 and of its financial performance for the year ended; and
- (c) complying with Australian Accounting Standards Reduced Disclosure Requirements and the *Corporations Regulations 2001*.

#### **Basis for Opinion**

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled our other ethical responsibilities in accordance with the Code.

I confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### **Responsibilities of Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable

## rosenfeld <mark>kant</mark>

## Independent Audit Report to the members of NBFI Secured Investments Ltd

assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the directors with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## Independent Audit Report to the members of NBFI Secured Investments Ltd

From the matters communicated with the directors, I determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

avero

Raul Valois CA

13 October 2022

### 10. General Information

#### 10.1 Secured Note Trust Deed

By a Trust Deed dated 12 December 2006, as amended from time to time, the Company created a charge in favour of the Trustee for Secured Noteholders. Investors may inspect a copy of the Trust Deed at the registered office of the Company at Level 24 Tower 2 101 Grafton Street BONDI JUNCTION NSW 2022 or Level 1, 274-290 Victoria Street DARLINGHURST NSW 2010 during normal business hours. A copy of the Trust Deed may also be obtained free of charge by telephoning (02) 9167-0909 or writing to the Company's registered office.

The parties to the Trust Deed are the Company and as from 14 February 2017, Melbourne Securities Corporation Ltd (**Trustee**), Sandhurst Trustees retired from this role on the same date.

The principal place of business of the Trustee is: Level 2, 395 Collins Street, Melbourne, Victoria 3000.

The Company is not permitted under the Trust Deed to allow any secured borrowings of the Company and any subsidiaries to rank for repayment ahead of Secured Notes secured under the Trust Deed, except in the case where the Company acquires a subsidiary which has a pre-existing liability and in that case the aggregate of the subsidiary's prior liabilities must be less than 10% of the Company's assets and the subsidiary must not incur any further prior liabilities and the prior liability must be discharged no later than the date or dates fixed for such a discharge.

The Trust Deed provides that, for the benefit of Secured Noteholders, the following is held in trust:

- (a) the right to enforce the Company's duty to repay;
- (b) any charges or security for repayment; and

(c) the right to enforce any other duties that the Company (and any guarantor) has under the terms of the Secured Notes or the provisions of the Trust Deed or the Corporations Act

#### Security

The Company has granted a General Security Agreement to the Trustee on behalf of investors which is registered on the Personal Property Security Register. The security has been granted over all the assets of the Company.

The Company covenants that it will cause any wholly owned subsidiary (subject to exceptions) to become a guarantor under the Deed. At the date of this Prospectus the Company has no subsidiaries.

#### **Borrowing Limitations**

The Company's power to borrow is limited under clause 8 of the Trust Deed. The Company covenants with the Trustee that it will not (except as permitted by the Trust Deed), at any time, issue any stock and the Company and its subsidiaries will not give or suffer to exist any encumbrance over their property or assets:

- (a) unless the Company has total tangible assets, which exceed total external liabilities by at least \$500,000.00; or
- (b) if (a) does not apply, unless the Company has total tangible assets which exceed total external liabilities:
  - (i) by at least \$50,000.00 up to \$250,000.00 and the total external liabilities do not exceed 97% of total tangible assets; or
  - (ii) by at least \$250,000.00 up to \$500,000.00 and the total external liabilities do not exceed 98% of total tangible assets.

The amount sought through this issue of Secured Notes will be in compliance with the limitations contained in the Trust Deed.

#### Interest

Interest will continue to accrue to the date of redemption of Secured Notes. Where the Company fails to redeem Secured Notes on the due date and a demand is made by the Trustee or a representative of the Noteholders who provide the required evidence of their ownership, interest will accrue daily until actual repayment of the Secured Notes. All interest so accrued is secured under the terms of the Trust Deed.

#### **Security Notes**

Security Notes may be issued by the Company to any bank or other person (or to an agent of such Bank or person) by way of security for any present or future, fixed or contingent liability (Security Notes).

Security Notes shall be deemed to be issued fully paid unless otherwise specified on the certificate and shall rank equally in all respects with all other Secured Notes. Security Notes may be issued on terms that they are payable on demand. They shall not be transferred without the consent of the Trustee and shall only carry interest on such terms and conditions determined by the Trustee. Where the Trustee serves on the Company a notice that an event of default specified under the Trust Deed has occurred, the holders of Security Notes shall be entitled to payment equally with other Secured Noteholders of:

- (a) the lesser of:
  - (i) the nominal value of the Security Notes; and
  - (ii) the aggregate of Actual Security Moneys and any Contingent Security Moneys which have become owing; and
- (b) interest payable on the Security Notes calculated on the date of redemption on the lesser of:
  - (i) the nominal value of the Security Notes; and
  - (ii) the Actual Security Moneys.

In this Section:

- "Actual Security Moneys" means in relation to any Security Notes at any date all sums of money owing at that date (whether then due and payable or not) by the Company in respect of that Security Notes including any premium payable and all interest accrued on such moneys to that date.
- "Contingent Security Moneys" means on any date all contingent liabilities and all moneys which are not owing at that date but which may thereafter become owing by the Company in relation to Security Notes, excluding any interest which accrues after that date on any Actual Security Moneys as at that date in relation to the Security Notes.

#### Amendment of the Trust Deed

The Trustee may concur with the Company in making any alteration, modification or addition to the Trust Deed if:

- (a) in the opinion of the Trustee: it is made to correct a manifest error or is of a formal, technical or administrative nature only; it is necessary, expedient or required to enable any Secured Notes to be listed for quotation on any stock exchange or to enable the issue of Secured Notes expressed to be instruments payable to bearer; it is necessary, expedient or required to comply with any law or amendment to the Corporations Act 2001 (Cth); or it is not prejudicial to the interests of the Secured Noteholders;
- (b) the alteration, modification or addition is approved or sanctioned by extraordinary resolution of the Secured Noteholders in accordance with the Trust Deed;
- (c) the Company serves on all Secured Noteholders prior to any amendment a copy of the amending deed, together with a circular which explains the terms and effects of the proposed amendment and an offer to Secured Noteholders to redeem their Secured Notes by payment by cheque in accordance with the Trust Deed;
- (d) the proposed amendment takes effect prior to redemption of any Secured Notes issued on the terms and conditions of the Trust Deed and the Noteholders have been offered additional security which, in the bona fide opinion of the Directors properly compensates such Noteholders for any derogation of their rights consequent upon making such an amendment to the Trust Deed, a Directors' certificate is provided to that effect to the Trustee and the amendment is approved by extraordinary resolution of NBFISI Noteholders; or
- (e) the proposed amendment takes effect only after the redemption of all Secured Notes issued on the terms and conditions of the Trust Deed prior to the date of operation of such amendment and all Secured Notes outstanding as at the date of the proposed amendment comes into force were issued subject to the terms and conditions of the Trust Deed as amended.

No Director of the Company, or a firm of which the Director is a partner, has an interest in the promotion of the Company or any property proposed to be acquired by the Company in connection with its formation or promotion that existed when the Prospectus was lodged or existed within two years before the lodgement of the Prospectus, except the interests held directly or indirectly as set out below:

#### **Directors' Shareholdings**

The Company is wholly owned by NBFI Holdings Pty Ltd

NBFI HOLDINGS PTY LTD	Ordinary Shares	696,000
NBFI HOLDINGS PTY LTD	Cumulative Preference Shares	140,000
NBFI HOLDINGS PTY LTD	Redeemable Preference Shares	425,000

The table below sets out information about shareholders in NBFI Holdings Pty Ltd and each Director's interest in NBFI Holdings Pty Ltd.

Meadsview Pty Ltd (in which Director Dr Henry Pinskier has a relevant interest)	Ordinary Shares	350
Geoffsue Investments Pty Ltd (in which Director Geoffrey John Wensley has a relevant interest)	Ordinary Shares	50

WTF Advisory Pty Ltd (in which Director Peter David Wright has a relevant interest)	Ordinary Shares	500
Craig Stephen Hitchings	Ordinary Shares	100

Where a Director has a beneficial interest in an adviser, the adviser will remain eligible to receive brokerage which the Company may pay calculated on the amount subscribed at the rates disclosed in Section 7.9of this Prospectus. No Director had such an interest when the Prospectus was lodged.

No amounts have been paid or agreed to be paid in cash or shares or otherwise to any Director or firm of which the Director is involved to induce the Director to become or qualify as a Director or otherwise for services rendered by the Director or the firm in connection with the promotion of the Company or for Directors' fees; except that Directors have been and continue to be entitled to receive Directors' fees (currently not exceeding \$30,000.00 per annum each) and all Directors continue to be entitled to receive salaries and other entitlements as employees of the Company without specific provision being made for services rendered in connection with the promotion of the Company.

#### **10.3 Consents and Responsibility Statements**

The Trustee has given and not withdrawn its consent to be named as the Trustee in this Prospectus. Neither the Trustee nor any of its related parties have authorised or caused the issue of this Prospectus. Neither the Trustee nor any member of the Trustee or their related parties make any representations as to the truth or accuracy of the contents of this Prospectus other than the parts which refer directly to the Trustee, or which refer to the provisions of the Trust Deed. Moreover, they do not make any representations regarding or accept any responsibility for any statements or omissions in or from any other parts of this Prospectus.

Rosenfeld Kant & Co has given and not withdrawn its written consent to the inclusion of its Auditor's Reports in Section 8 in the form and context in which they are included. Rosenfeld Kant & Co has not been involved in the preparation of any other part of this Prospectus and has not authorised or caused the issue of any other part of this Prospectus and specifically disclaims liability to any person in respect of statements included elsewhere in this Prospectus.

#### **Register of NBFISI Noteholders**

The Company maintains a register of NBFISI Noteholders at its registered office. During normal business hours of the Company, NBFISI Noteholders have a right and other person have a limited right, to inspect the register or request the Company to provide a copy of the register or part of the register. Information in relation to an NBFISI Noteholder will continue to be included in the register, even if that NBFISI Noteholder ceases to hold NBFISI Notes.

## 11. Complaints Resolution

The Company's policy is to handle complaints by holders of NBFISI Notes (**NBFISI Noteholders**) promptly and fairly. NBFISI Noteholders who have a complaint concerning a decision by the Company in relation to their NBFISI Notes, may lodge a complaint with the Company in person, by telephone or in writing to the Company's registered office at: Suite 103, Level 1 274-290 Victoria Street DARLINGHURST NSW 2010.

We will acknowledge receipt of your complaint within 7 business days and advise you of our decision on your complaint within 45 business days. If you feel we have not satisfactorily resolved your complaint, you may refer your complaint to an independent and external complaints handling body called Australian Financial Complaints Authority (AFCA). Details of how to access this service are available at the Company's registered office or contact AFCA directly at:

G.P.O. Box 3, Melbourne 3001, or phone 1800 931 678 (9am - 5pm AEST)

## 12. Privacy Policy

Protecting your privacy is important to us. We take reasonable care to ensure that our record of your personal information is accurate, protected from misuse and treated confidentiality in accordance with the *Privacy Act 1988* (Cth) (**Privacy Act**) and the Australian Privacy Principles contained in the Privacy Act.

The Company will collect, hold and use your personal information to facilitate the issue of NBFISI Notes to you, service your needs as a Note holder, facilitate distribution payments, communicate with you, provide facilities requested and carry out appropriate administration. The Company may also use your personal information to market to your other financial products and services offered by it.

Your personal information may also be used from time to time and disclosed for purposes relating to your investment to the Company's agents and service providers it may engage in connection with the ordinary conduct of its operations, persons inspecting the Note register, print service providers, mail houses, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, legal and accounting firms, auditors, other advisers for the purpose of advising on the Notes or as otherwise required under the Privacy

Act.

The Australian taxation legislation and the Corporations Act require personal information about Applicants, including name, address and details about Secured Notes, to be included on the Note register. Personal information held on the Note register must be accessible to the public under the Corporations Act and will continue to be included on the Note register where you cease to be a Note holder.

If you do not consent to these uses or disclosures, you should not complete the Application Form, which accompanies this Prospectus. Without your personal information the Company may be unable to process of accept your application for NBFISI Notes or to operate or administer your investment.

You may request access to, correction of and an update to the personal information that the Company holds about you by contacting the Company by writing to the Privacy Officer at the Company's principal business office at:

Suite 103, Level 1 274-290 Victoria Street

DARLINGHURST NSW 2010

You will generally be provided access to your personal information, subject to some exceptions permitted by law. You may be required to pay a reasonable fee to the Company to gain access to your personal information. Please contact the Company if you wish to lodge a complaint about the management of your personal information or obtain further information about the Company's privacy practices. You should notify the Company of any changes to your personal information that we hold about you including your name, address and other contact details.

## 13. Anti-Money Laundering and Counter-Terrorism Financing

You must not knowingly do anything to put the Company in breach of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth), rules and other subordinate instruments (**AML/CTF Laws**). You undertake to notify the Company if you are aware of anything that would put the Company in breach of AML/CTF Laws.

If requested, you must provide additional information and assistance and comply with all reasonable requests to facilitate the Company's compliance with AML/CTF Laws in Australia or an equivalent law in an overseas jurisdiction.

You undertake that you are not aware and have no reason to suspect that:

- 1 the money used to fund the investment is derived from or related to money laundering, terrorism financing or similar activities (Illegal Activities); and
- 2 proceeds of investment made in connection with this product will fund IllegalActivities.

The Company is subject to AML/CTF Laws. In making an application pursuant to this Prospectus you consent to the Company disclosing in connection with AML/CTF Laws any of your Personal Information as defined in the *Privacy Act 1988* (Cth) the Company has.

In certain circumstances the Company may be obliged to freeze or block an account where it is used in connection with Illegal Activities or suspected Illegal Activities. Freezing or blocking can arise as a result of the account monitoring that is required by AML/CTF Laws. If this occurs, the Company is not liable to you for any consequences or losses whatsoever and you agree to indemnify the Company if the Company is found liable to a third party in connection with the freezing or blocking of your account.

The Company retains the right not to provide services to any applicant that the Company decides, in its sole discretion, that it does not wish to supply.

## 14. COVID 19

NBFISI is fully aware that we are in a unique and interesting time with the rapidly changing and challenging issues surrounding businesses in relation to **COVID 19**. NBFISI is aware of the impact of the current environment and potential impact on the business and its clients.

Although the impact of COVID -19 is perhaps too early to ascertain, the board is closely monitoring the Investment and Loan portfolios and adopting and implementing procedures to deal with the current external environment on a case by case basis.

## 15. Director's Statement & Consent

The Directors report that for the period ended 30 June 2022, to the date of this Prospectus they have not become aware of any circumstances which have or will materially affect the trading and profitability of the Company or the value of its assets and liabilities, otherwise than as disclosed in this Prospectus.

The Directors reasonably believe and are of the view that having regard to the Company's past performance and current market activities, the Company will continue to trade successfully in the coming year.

The Directors of the Company are of the opinion that the Company will be in a position to meet, as they fall due, interest and principal repayments on Secured Notes issued under this Prospectus.

If you do not understand any of the material in this Prospectus, the Directors urge you to consult your financial or other professional adviser.

Each Director of the Company has consented to the lodgement of this Prospectus with ASIC and has not withdrawn that consent.

Peter D Wright

thent

Chairman

## 16. Completing Your Investment Form

#### To complete the Application Form that is attached to this Prospectus please:

- use Black or Blue pen
- use CAPITAL LETTERS and mark your options with an X
- list your full name, address and other contact details
- in the case of a Company, list the full Company name including its ACN/ABN
- if you are investing in the name of a trust, ensure that the investment is in the name of the trustee

#### TAX FILE NUMBER

you are not required to provide your tax file number (TFN), but if you choose not to or provide a valid exemption, the Company
is required to withhold tax from income distributions at the highest marginal tax rate plus Medicare Levy. For more information
about TFNs please contact your nearest tax office.

#### INTEREST RATES

- interest rates are set out in the Interest Rate Card provided with this Prospectus
- please phone the Company on 02 9167 0909 or go to www.nbfisecuredinvestments.com to confirm the interest rate applicable for the term you wish to invest for

#### TERM

• 12 months, 24 months or 36 months.

#### INTEREST PAYMENTS

Please complete one of the payment options:

• provide your banking details for payment of interest into your nominated account; or select the compound interest option to have interest added to your investment

#### TRANSFER OF FUNDS

- contact the Company on 02 9167 0909 for Direct Credit transfer details: or
- make your cheque payable to NBFISI, crossed "Not Negotiable", and attach it to your application

#### COMPLETED APPLICATION FORM

Please post your completed application form, supporting documentation and your cheque (if applicable) to:

NBFI Secured Investments Suite 103, Level 1 274-290 Victoria Street DARLINGHURST NSW 2010

Or, you may deliver it to the Company's office at:

Suite 103, Level 1 274-290 Victoria Street DARLINGHURST NSW 2010

#### NEED ASSISTANCE?

If you have any questions concerning completion of the application, please do not hesitate to phone NBFISI on 02 9167 0909 between 9.00am and 5.00pm, Monday to Friday.
